# Settysburg Compiler. FRIDAY AFTERNOON, OCT. 11, 1867.

## THE OBUTTY.

The result of the election in this county on Tuesday last may be recorded as a glorious event in the history of the Democracy. With an earnest and untiring struggle, the county was carried for Clymer last fall by 216. During the campaign just closed, we had Congressional patronage to overcome, (the Clerk of the House resides here and has a large hand in the direction of Radical affairs, ) and had to contend with Pennsylvania Railroad influence, through Simon Cameron and his local man "Friday," McConaughy. Radical speakers, too, were on the stump every night for more than a thusiasm week, as many as three meetings going on at-different points the same evening. Their candidates were likewise busy,

stirring up the faithful and begging votes from Democrats. But all to no purpose. Clymer's majority of 210 has been increased to 392 for

Sharmood !- and the whole Democratic is elected by majorities ranging ticket from 313 to 410 !! All honor to our gallant Democracy, They went into the fight with the confident belief that a majority of the people of the county would not endorse congressional usurpation and equality among the races, and result has not deceived them. The white men of Adams are true to themselves, and the *white-cause* triumphs! "Olory enough for one day!"

THE COMPILER.

sues involved in the campaign overshadowed everything else, and of course ed all the space at the command | adopted : of Democratic and Conservative editors But, the context decided, (and so gloriously too.) we are again left space for reading of a misoellaneous character-and this shall be made as entertaining and useful as possible. Whilst our readers will be kept posted in regard to the revolutionary aims and doings of the Radicals, and the efforts made to frustrate them, the news department will keep pace with events, literary matter will have due place, the claims of humor will be recognized, and the agricultural column be attended to with all the care which the editor can bestow upon itand he flatters himself that his many practical hints during the last twenty odd years have been of some avail in the marked agricultural improvement of Adams county. No effort will be spared to make the COMPILER a First Class Family Journal. All-men, women and children, in town and country-will find in its smple pages much to entertain and instruct them. We have of late received many acces-

sions to our previously large list-beside, other almost daily manifestations of satisfaction with the enlargement and general improvement of the paper. Thankful and grateful for these flattering and substantial evidences of apprecistion, we would remind those . Democrats whose names are not yet on our list, that the placing of them there would afford us very great pleasure. We publish a paper among the very largest in the State, and have a circulation among the largest claimed by country journals; still it can be considerably increased, and that with but trifling effort on the part of our present patrons. Friends, everywhere, give us your aid. Whilst you ried togicserve such favor,) you will help white man's cause and the white man's Menallen, the "good old cause," which is the cause ticket, and forming a procession, with Franklin, of Right and Truth, at the same time.

If the Legislature shall decide in favor of Governor Smith's apportionment, the Legislature will be unanimously Democratic. If in favor of the first apportionment, made by Acting Governor Meagher, then Mr. Irwin, from Madison, will have the honor of being the only Republican in the Montana Legislature. Among the members elect are Samuel Orr. formerly of Missouri, in which State he was the Bell-Everett candidate for Governor in 1860, and beaten by less than 8,000 votes.

STANTON .- A despatch from Washington says : Congress reconvenes in little more than seven weeks, but long before that time the President will have the charges and reasons for suspending Secretary Stanton from the War Department ready for submision to the Senate, as required by the Civil Tonure of Office law. The case made out by the President is an exceedingly strong one, and the Senate will find itself enlightened in matters it little dreams of when it receives the documents in the premises.
