FRIDAY AFTERNOON, OCT. 11, 1867.

From the Mobile Evening News large number of people crowded the yard to-day to witness the haug-of Robinson, Richardson and Grant, ing of Robinson, Richardson and Grant, the three negroes sentenced to death by Judge Chamberlain at the last term of the City Court. Long before 10 o'clock large number of negroes assembled in front of the jail, and the yard, at the time of the execution, was so densely crowded that the police and military had great difficulty in keeping open the space about the scaffold. Of course, many of our readers are familiar with the facts developed in the trial of these negroes, but for the benefit of those who are not, we give the following synopsis: Mr. Fred. Peters, an industrious and well Fred. Peters, an industrious and well known white man, residing about ten miles from the city, in a fork of Dog miles from the city, in a fork of Dog River, was preparing to retire for the might, when his house was suddenly and violently entered by four negroes. Mr. Peters's family, consisting of a wife and four children, were engaged in evening prayers at the time. The negroes were more or tess disguised. They demanded from Mr. Peters his money, and received from him three dollars and a half, all that he had in his pocket. Defore giving them this money, Mr. Persoffered resistance, but was unarmed, hile the negroes were amply supplied with firearms, and found that he was unable to contend with the robbers.

After getting this thought they hashed the remainder of his money was concealed, and he refusing to do this, they seized his wife and searched her person in the most brutal manner. They found upon her St.400 in gold and paper money. After getting this further supply of money, they commenced searching the house for more. They broke up all of the furniture, and tore up a number of the floor planks, but did not succeed in discovering anything. In the meantime Mr. Peters became reative, and one of the negroes fired several shots at him. Fortunately, none of them took effect, and one of the buttes took a position in front of Mr. Peters, and with a cocked and loaded pistol presented at his breast, when the floor presented at his breast. front of Mr. Peters, and with a cocked and loaded pistol presented at his breast, kept him from moving during the greater part of the four hours they remained in the house. He was held pussive to look upon the violation of his wife and his daughter by three of the four rufflans. The daughter was only at welve years of age, and the knife of the negroes was called into requisition. After doing whatever they pleased in the house, they finally left, and for several days no arrest was made, and no clue could be obtained by the police. Finally, on the 3d of June, Ulyasse S. Grant was arrested; on the 8th of the same mount Jim Richardson was also arrested, and shortly afterwards Charles (over Grant was arrested; on the wind in the same month Jim Richardson was also ariested, and shortly afterwards Charles Robinson was in the guard house. All three of these negroes were identified by the Peters family, before the City Court, as having been members of the gang that perpetrated the outrage, and they were convicted by a jury and sentenced to be hanged on the 3oth of August. But as is known, the Governor, to whom communications had been forwarded by several city officials, postpoped the day of hanging for four weeks. Another of these negroes, Bob Smith, was arrested by Colonel Dimon in New Orleans, but through some legal quibble escaped. As the hatchet fell and the unfortunate men were launched into eternity, a piercing the hatchet fell and the unfortunate men were launched into eternity, a pierchy scream was heard from the crowd, followed by a scene of wild confusion. Two or three negro women fell over in seeming convulsions, and were borne, kicking and struggling, through the seetning mass to the gate. Beyond this, no disturbance or display was made by those present.

THE UNION PACIFIC RAILROAD CO. THEIR FIRST MORTGAGE BONDS AS AN INFESTMENT.

THE rapid progress of the Union Pacific Railrosd, now building west from Omaha, Nebraska, and forming, with its western connections, as unbroken line across the continent, attracts attention to the value of the First Morigage Bond which the Company now offer to the public. The first question asked by prudent investors is, "Are these bonds secure?" Next, "Are they a profitable investment?" To reply in lart (: ist. The early completion of the whole great line to the Pacific is an extrain as any future business event can be. The American Watch Company, of Waltham, Mass., respectfully submit that their Walches are cheaper, more accurate, less complex, more durable, better adapted for general use, and more emply kept in order and repaired than any other watches in the market. They are simpler in atructure, and therefore stronger, and less likely to be injured than the majority of foreign watches, which are composed of from 126 to 300 pjeces, while in an old English watch there are more than 700 parts. How they run under the hardest trial
