CALIFORNIA, says an Eastern paper, gives birth to a good many facts. A friend Informs us, for instance, that it is impossible to grow the common turnip in any part of the country—the soil being so impregnated with gold-dust that the "yaller strikes through," and converts them all into rutabagas. As old Dutchman undertook to wallop his son; Jake turned tho tables and wal- loped him. The old man cousoled him- self for his defeat by rejoleing at his son's superior manhood. He said: "Vell, Shake is a tam schmart fellow. He can whip his own taddy."	Ix a railroad station is a placard, an- nouncing "No smoking," posted over the lamp. Two Irishmen appear, one smoking. "Mike," says the other, "ye're trans- gressin' the rules of the establishment." "How's that?" said the smoker. "Don't you see there—'no smoking!"" "Yis; but can't ye see, ye spalpeen, the remark is addressed to the lamp?" AppLyING IT.—Rev. Mr. P., of Ports- mouth, N. H., was, at family devotions, explaining the nature of prayer. His lit- tle son, four years of age, eagerly inquir- ed, "Can we ask God for anything we want?" "Certainly," was the answer. Chancing, soon after, to pass the child's sleeping room, the father saw him on his knees. Drawing near, he was taken a- back by hearing the youngster close his petitions thus: "And please, God, make my mother fry me some doughnuts." A GENTLEMAN one evening said to a lady near whom he was seated, "Why	nineteen years sit on laps; you wouldn't call them bables, would you!" IN a certain school, during the parsing lesson, the word "waif" occurred in the sentence. The youngest boy who was up, a bright-eyed little fellow, puzzled over the word for a few minutes, and then a bright idea struck him, "I can parse it-positive, waif; comparative, wafer; superlative, sealing war." At a duel the parties discharged their pistols without effect, whereupon one of the seconds interfered, and proposed that the parties should shake hands. To this the other second objected, as un- necessary. "For," said he, "their hands have been shaking this balf hour." THE keeper of a grocery happened one day to break one of his tumblers. He stood a moment looking at the fragments and reflecting on his loss, then turning to his assistant, he cried out:"Tom, put a quart of water in that old Cognac!" "PEACE has its Victories." A one- armed soldier was captured the other day by the Boston Police, taken before the municipal court in that city, and fined five dollars for playing his hand- organ on the sidewalk before the oid	put Ike in a store?" "Yes," replet the old lady, "but I'm pestifirous to know which. Some of them tell me that the wholesale trade is the best, but I belleve the ringtail will be the most beneficious to him in his present abdominal couli- tion." Mr. MARTIN GATES, of Duncanville, Blair county, Pa., was severely wounded in the chest during the late war. He came home and got well. The other day he extracted a large brass button from the wound. The button, which was flattened, had been driven into his body by the bullet, and has remained there fully three years. THE population of New York in 1760 was 39,131. It has been four times doub- let in one hundred years. Paris has doubled within thirty-two years; Lon- don within forty years, and Vienna with- in forty-four. A HUSBAND, on being told, the other evening, that his wife had lost her tem- per, said he was glad of it, for it was a very bad one. THE Protestant Bishop of Cork is a pouper.
