A UNIVERSAL suffrage bill has been prepared for presentation at an early day after the meeting of Congress. It proposes to confer on all negroes the right to vote for President and Vice President and for members of Congress. What the prospects are for its immediate passage we cannot say, but a few weeks will put the Radicals to the test.

The Radical majority in West Virginis has been largely reduced. One fire more and the State will be ours. HIGH-HANDED MEASURES.

Since the election in Nightinia, it appears that Vigilance Committees have been formed in Richmond among the blacks, who are giving pothe to certain of the whites that they must leave that city within forty-eight hours. How long can white men be expected to tolerate such outrages? With what extrodinary paience is it thought that Southern men are endowed to allow the perpetration of such grievous wrongs? If such exceses are indugled in-if the ignorant negroes are to be permitted to gratify their brutish passions, there must come one of the most terrible and destructive conflicts that have ever brought sorrow to any land. A gigantic struggle will be inaugurated which must inevitably reult in the utter extermination of the blacks. Our own proud race will never submit to humiliation, insult, and the exercise of tyrannical power at the hands f these inferior creatures. Its innate dignity and superiority will assert them-selves and demand that the State gov-ernments be administered by white men. What atrocities have been committed by white men upon negroes since the recent elections? The list of outrages and atrocities are altogther on the other side. Negroes have constituted themselves into vigil-

RADICALINE PLOTTING MISCHIEF.

The Radicals are alarmed at the pros pect of losing the Pennsylvania Senate at the next election, and they have already commenced the work of preparing the public mind for an outrage they have in contemplation, and which we noticed last week, in order to maintain their majority in that body. When formed a "double" Senatorial district Huntingdon and Perry counties. Sufficient evidence has been obtained, it is said, to give Messrs. McVitty and Robinson their seats, without reference to the large number of deserters that voted in Juniata and Centre counties. The election of Shugart and McIntyre will therefore be contested, with, it is claimed, a certainty of success.

### THE TAX-GATHERER AND THE BAY.

THE ADAMS COUNTY It has often been predicted in these columns that the inevitable result of the Abolition policy dward the South would be to destroy its capacity to pay taxes, and that the slender revenue the government secured would be, as in Ireland, at the point of the bayonet. Such its already the case. General Pope, commissioned tyrant of the Georgia "District," has, as we learn from a proclamation of his, "ordered the military to assist the civil authorities in collecting taxes in Alabama and Florida." The people there have been so oppressed, so grossly injured by Abolition interference with their labor system, so robbed by the idle negroes and mercenary emissaries, that they find it utterly impossible to procure money to pay taxes. The civil i officers, consisting generally of mean white men who had secured offices from a tax passible to procure money to pay taxes.
