## THE SOVEMBER ELECTIONS.

On Tuesday, the 5th instant, elections New Jersey, Maryland, Illinois, Wisconsin, Minnesota and Kansas, for State o local officers. The results are most cheering to the Democratic and conserwith the lower House of the Legislature, and in the latter we have both branches sale. of the Assembly and a majority of about 13,000 on the popular vote. Maryland has elected Democrats for everything evchusetts alone. In Kansas, Wisconsin small figures. Our whole gains in No vember, on the popular vote, cannot be short of one hundred thousand.

This great mumph must cheer every land. mad career; that the voice of the country is opposed to their plan of reconstruction; is opposed to impeachment; is opdoubt and for all time to come! The peostored. This verdict of the white freemen of the North has thrown down the stripped his prostrate carcuss of the tinsel and glitter of supremacy.

THE NEED OF THE DEMOCRACY.-One thing is how certain, to wit: Radicalism must, in future, rely upon prejudice and ignorance for success. It is equally the intelligence and reason of the people for aid and recuperation of strength. and half-civilized ex-slaves of the South, by appeals to their cupidity and base ons, and thus hopes to maintain its power. But Democracy could not, if it would, resort to such dastard means. It must convince the thinking, coolheaded, patriotic people of the North o doing it alone can succeed How is this to be done? We answer, mainly through the influence of the press. Democratic newspapers are the surest and most effective engines that can be used in the work of the polliteal regeneration of the people. Could every Republican in Adams county read a Democratic newspaper, weekly, for one year, there would be 1000 Democratic majority in the county at the succeeding election. The people need only to see and know the truth in regard to the doings of Radicalism, to cause them to turn their backs upon it. Hence, we would urge upon the leading Democrats of the different districts of this consideration, and it has had new life county, to canvass actively for subscribers to the COMPILER. Let the work nal source—the people. It comes back not of near so great service as regular issues. In every township some Democrat could make himself useful to the cause by inducing his neighbor to subacribe for his county paper. Of course this will benefit the publisher, but it will be of far greater advantage to the party. Now, friends, "put vous shoulders to the wheel," and let your

The official vote of Bosthat State will be 27,000—against about the members of the Reserve because for the Radicals. There is abundant evidence that many of the agents use the Bureau for swindling, thieving purposes. No doubt in many cases it has been the means of doing good, but we might inquire what right Congress has to spend the people's money to educate, feed and clothe the Southern blacks? The Constitution grants no such power, and that instrument gives Congress all and that instrument gives Congress all the authority it possesses over legislation. General Howard says the Bureau can be dispensed with after the first of next July, which we hope will be done.

GRANT DISTASTEFUL TO THE NEGROES. -The Pittsburg negroes have sounded the warning to the mongrels. At a meeting held there on the night of the 25th ult., they resolved that they saw no necessity for nominating General Grant for the Presidency, but very great necessity for nominating Salmon P. Chase. Monsieur nigger is the ruling man now in the mongrel camp, and he has got, not only to be consulted, but respected. Whoever the negroes nominate the Republicans must take. They have given strong evidence in the Southern elections that they are bound to shine.
