atracted with influte diversity of form and function expressly for the purpose, to produce the
finished pieces. By means of multiplying sauges
and microscopes, tests and inspection for the detection of wear in the cutting tools, and for faults
and flaws in steel or stone are made to accumpany
the work in every stage from beginning to end.
As a necessary result, the watch goes together a
perfect machine. Every part is found to it
properly in its place. Every pin may be pushed
till it pinches, and every screw turned home.
Instead of a sluggish and feeble action, the balance, even under the pressure of the slightest
mainspring, vibrates with a wide and free motion, and the best has the clear ringing sound
always characteristic of the Waltham Watch.
The machine is a time keeper from the start.

THE subscriber offers his FARM for sale. It is situated in Adams county, Pa., near the York and Gettysburg Turnpike, 3 miles from New Octord, of from tedtysburg, and i mile from the control of the c AT PRIVATE SALE. This system of watch making is unknown in foreign countries, and is entirely original with the
Waitham Company. The Company claim that
by it they produce watches that cannot be
equalled for every quality that makes a watch
valuable. Simple in pian shd correct in principle, the movement is not only beautifully finished, substantial, accurate and cheap, but is unform in the minutest détails, not cessily damaged,
and when repaired always as good as new. There
are different grades of finish in the different varetties of watches made by the Waitham Ocrapany, as there are different sizes and shapes to ruit
all tastes and means; but every Watch that bears
the granulus trade-mark of "WALTHAM" is guarantied to be a good one, and nobody ased be

In the Chambersburg Surnpile of the Muslim of the Chambersburg Surnpile of the Chambersburg Surnpi The true value of Machinery applied to Watch-making is not that by its use Watches are made rapidly, but that they are made correctly. Very few people know why a Waitham Watch should be superior to any other In the first pluce, at Waitham the Watch is regarded as only a machine, to be constructed like any other machine, on mechanical principles. If the Watches are good, it is because the machinery is good. Of course there must be no defect in the principle or plan of the movement—no mistake in the size or shapes of the pueces of which it is composed—nothing wanting in their properties, and no error in their positions. These points once thoroughly settled, it rests wholly with the machinery, constructed with infinite diversity of form and function expressly for the purpose, to produce the
