UNION PACIFIC RAILROAD,

Running West from Omaha ACROSS THE CONTINENT, ARE NOW COMPLETED.

Rocky Mountains, and it is expected that the track will be laid thirty miles further, to Evans thus, the highest point on the road, by January. tains to the summit is but eighty feet to the mile ired. Work in the rock-cuttings on the western slope will continue through the winter, and there is no reason to doubt that the entire grand line to the Pacific will be open for business in

line to the Pacific will be open for business in 1870.

The means provided for the construction of this Great National Work are ample. The United States grants its 87k. Per Cent. Bonds at the rate of from \$16,000 to \$48,000 per mile, for which it takes a second hen as security, and receives payment to a large if not the full extent of its claim in services. These Bonds are issued as each twenty-mile section is finished, and after it has been examined by United States Commissioners and pronounced to be in all respects a first-class road, thoroughly supplied with depots, repair-shops, stations, and all the necessary rolling stock and other equipments.

repair-shops, stations, and all the necessary roll-ing stock and other equipments.

The United States also makes a donation of 12,800 acres of land to the mille, which will be a source of large revenue to the Company. Much of this land in the Platte Valley is among the most fertile in the world, sind other large por-tions are covered with heavy plue forests and abound in coal of the best quality.

abound in coal of the best quality.

The Company is also authorized to issue its own First Mortgage Bonds to an amount equal to the issue of the Government and no more. Hon. E. D. Morgan and Hon. Oakos Ames are Trustees for the Bondholders, and deliver the Bonds to the Company only as the work progresses, so that they always represent as actual and norduntity value. The authorized capital of the Company is One

nillions have been paid in upon the work al-EARNINGS OF THE COMPANY, At present, the prefits of the Company are de-ived only from its local traffic, but this is al-

rived only from its local traffic, but this is already much more than sufficient to pay the interest on all the Bonds the Company can issue, if not another mile were built. It is not doubted that when the road is confipleted the through traffic-of the only line connecting the Atlantic and Pacific States will be large beyond precedent, and, as there will be no competition, it can always be done at profitable rates.

It will be noticed that the Union Pacific Rallroad is, in fact, a Geormsont Work, built under the supervision of Government officers, and to a large extent with Government money, and that its bonds are issued under Government direction. It is believed that no similar security is so carefully guarded, and certainly no other is based carefully guarded, and certainly noother is based upon a larger or more valuable property.
