Admin County Democratic on Usual Outy More 80 ! The elections throughout this coun last Friday resulted in the choice of a large majority of Democratic Judges and other officers. On account of the bad weather and bad roads, the vote in many of the districts was light, but taken all in all, the Democracy have reason to congratulate themselves upon defeating Radicalism so handsomely.

In this borough the Radical majority was reduced about forty. One of the Democratic candidates ran within six votes of his opponent. "THE RADICAL CRUSADE."

Under this caption, the New York Citizen puts forth the following well considered and truthful article. It is of course from the pen of its editor, Gen. Enlpine, or "Private Miles O'Riley," if the reader likes the latter designation better:

The National Legislature has entered upon the greatest business that this Republic has ever witnessed. It is nothing ess than an attempt to impeach the Na tional Executive for political purposes, and to gratify a petty spirit of parties : maline, unbecoming the character of untion-destined, alasi how soon none may tell, to be called great only in the extent of its territory. That there exists no just or legal cause for this outrage on the part of Congress; is not likely to have much weight in deterring the maignity of the Radical faction from the consummation of its purpose. And if no justice can be found in the case of this iniquitous proceeding, how can we expect justice in the conduct of it? may look for the same indecent haste the same intolerance, the same disregard of fairness in the trial of the Executive that has invariably characterised the action of Congress in all its offerts to frustrate his reconstruction policy. Indeed; if the President be not suspended from office during impeachment it will be in no measure due to the good intentions of the Radical majority. Policy or discretion may restrain them, but justice or

propriety never. The Radical design to eject the President dent in technical diagrace from the Exeever again holding any Government, may succeed. Thaddeus Stevens. The Reading Gazette calls special at tention to this letter, and asks the people to mark the dictatorial terms of the concluding paragraph. Never was the akase of an Emperor issued in more per-

emptory style. Thaddeus Stevens speaks not as a mere partisan leader, not merely as a man in authority, not as a President of the United States might speak, but as one possessing supreme power, with no law but his own rude will. When it has come to pass in this country that such a man as Thaddeus Stevens can thus issue his orders from the chair in which he is daily carried up the steps of the Capitol, this country has surely fallen so low in the scale of infamy that there can scarcely be a lower depth of degradation. Let the people ponder this last order of the Radical dictator with the seriousness it

THE NEGRO BUBEAU TO BE CONTIN VKD. The Rump House, on the 19th, passed a bill to continue the Negro Bureau for another year after the 1st of July. So there goes another twelve million appropriation and from ten to twen ty millions from the sales of abandoned lands, and other "gobblings." Who dare say that the Southern nigs are not blessed race? It costs them nothing for food; nothing for clothing; nothing for medicine and medical attendance nothing for traveling to and fro: nothing to carry on lawsmits. And then they have nothing to do but attend political meetings and elections, as the "superior race;" to sit in conventions to make con stitutions at from \$10 to \$20 a day; to Assemblymen, mayors, aldermen, and a thousand minor offices, and generally to see to it that the "white trach" are kept at work making money to pay the taxes to keep the State machinery run-

The Rump makes a singular estimate of negro capabilities. Although the blacks are interior to the whites in mental vigor and development, they are give en supreme control in civil and political affairs; and although, as a race, the blacks are superior in physical strength out upon the whites, and the negroes are required to do nothing but live in idleness at the expense of the people.

But, then, the negroes of the South have been fashioned into Radical voting machines, and must be kept in complete overcome majorities against Radicalism in the Northern States. This is why the Rump is so Hbersl with the publican. money wrong from Northern mechanics and laborers by burdensome tuxation.-Patriot & Union.
