To this quality, if I may be slowed to speak of myself, do I owe the little success which I have attained. Left in early life to work my sown way shose, without friends or pecuniary resources, and with no other than a common education, I saw that the pathway before me was steep and rugged, and the height upon which I had ventured to fix the eyr of my ambition could be reached only by toll most severe and a purpose the most indominate life. But shrinking from no labor, disheretened by no obstacles, I struggled on. No opportunity, which the most watchful vigitance could secure, to excreise my power, was permitted to pass by unimproved.

and widely-effectual means of regenerating the country is the Democratic newspapers. Partisan organization, partisan meetings and partisan speeches may do their full share toward the accomplishment of this object, but after all they do not effect enough in reaching the hearts and convincing the judgments of voters. Men do not reason upon, reflect and inwardly digest, as a general rule, the able, eloquent, or witty things they may hear at big masa meetings. But let the same thing be seen in a newspaper in the shape of a speech, an editorial or a setected article, and it will be read either for curiosity or to while away an idle hour, and the chances are ten to one that it will be thought of afterward, conned over in secret, will gain a permanent lodgment in the reflections, and if it does not, as to the point aimed at, work positive conviction, it will at least modity or change somewhat the current of thoughts and feelings on that subject. A thorough understanding of this fact and principle has long directed the political tactics of the opposition, and has enabled them to build up the immense circulations attained by their principal journals, and gradually to corrupt the thoughts of the people with their heresies, by continually insinuating them

Radical discipline may, and most usually does, keep its subjects far nway from the sound of the Democratic Gospel, or finds means to counteract the emphemeral expressions of teath made by a preacher thereof: but it cannot always follow them into their families, in their hours of idleness and recreation. nor prevent them from indulging in Democratic reading occasionally; nor can it control their secret thoughts and mental operations, and thereby stop the course of reflection and conviction resulting from the political truths thus

Let us reiterate, therefore, the importance of widely circulating Democratic newspapers. The more deeply this idea is impressed upon the Democratic party, he more surely will every member of it feel an individual inspiration or person-al duty to throw in his own mite of effort for that purpose. And it is a labor in which every Democratican do something, and the party and the country needs and must have the best efforts of every one.
