THE CHARACTER OF THE I'NION
FACIFIC EASLENOAD.

While every person who has followed the progress of that wonderful undertaking, the Union Pacific Railroad, has marvelled at the unparalleled rapidity with which it has been constructed, some have felt skeptical as to the character of the work which was being done with such apparently headlong speed. Was it possible to build seven hundred miles of railroad in two years, and do it well? Could a intent work of modern Americas complete.
