Pacts about Agricultural Machinery and Manual Labor.

In response to a request to prepare : paper on the foregoing subject, Hon. John Stanton Gould writes as follows: I will give you the facts upon which such a paper should be based, and I think you may venture to rely upon them with considerable assurance, as they are based upon a pretty extensive correspondence with men who are most likely to be well informed upon the subject, and from sources of know lege which are open to me as President of the New York State Agricul-

tural Society.
1. There are 800,000 mowers and reapers in use in the United States. 2. The average cost of mowing machines is \$125; of reaping machines,

3. The average life of a machine is five years; some will use a mower or a reaper twenty years; but the average number of farmers buy a new machine once in five years.

4. Of the 300,000 machines, five-tenths are combined movement and a years, best tools between 1 and 2 years, best horse colt between 2 and 3 years, best horse colt between 2 and 3 years, best more coll between 2 and 3 years, best more coll between 2 and 3 years, best more coll between 2 and 3 years, best more collections and 3 ye

tenths are combined mowers and reapers, three-tenths single reapers.

5. Assuming that meadows yield one tou to an acre on an average, one man with a scythe will, mow an acre a day.

6. With a sickle, a fais day's work is half an acre; with a cradle, in wheat, two acres; in rye, one and a half acres; in oats, two and a half acres; in bariance; was a land a years.

Best stallion over 4 years, second best best stallion between 3 and 4 years.

2 and 3 years, best browd mare cover 4 years, second mare cover 4 years, and 3 years, second mare cover 4 years, second mare cover 4 years, second best browd best browd mare cover 4 years, second best browd b ers, three-tenths single reapers.

in oats, two and a half acres : in barley, two and a half acres. It is possi-

na average, ten acres, and areaper will
reap ten acres

8. Six binders will keep up with a
self-raking machine.

9. It is well settled that a mowing
machine will cut closer and give more
hay than a scythe. A reaping machine will also cut cleaner than a crachine will also cut cleaner than a craing of horses two weeks prior to the Fair. chine will also cut cleaner than a cradle or a sickle. I know of no experiments made with a view of accurately testing this difference, but I think it would not be over estimated at 5 per cent.

10. I estimate the total production of

10. I estimate the total production of hay in the United States at 25,006,000 of tons; the amount raised in New York at 400,000 tons.
11. I estimate that-15,000,000 acres

were sown in wheat in the United neres in oats, 100,000 acres in rye, 900,000 acond best on oats, 100,000 acres in bariey, making an aggregate of 18,000,000 of best helfer or ow between 2 and 3 yrs., best helfer are own between 1 and 2 years, best helfer raif. States, 2,000,000 acres in rye, 900,000

12. The average length of time occupied in securing the hay and grain, I estimate to be between six and seven weeks, in the United States.

harvesting machinery, the women of the country secured a greater number of the crops raised in the country during the war, without which it would have been impossible to have maintained our armies in the field. This labor, performed by the women, was harvesting machinery, the women of labor, performed by the women, was not exhaustive of their physical strength or injurious to their health, nor did it impair their delicacy. It consisted mainly in sitting in a comfortable spring chair, and in riding about the field.

15. About 60,000 mowers and reapers

are annually made in the United States for this and foreign markets .-The intelligent part of labor dispensed with in the field is therefore in market in the workshop in making the machines, than is realized from the at a much higher rate of remuneration field by their introduction. Yet the aggregate amount of wages is greater.

CURE FOR RINGBONE -- A correspondent of the Rural New Yorker says that he has known a horse that went for twelve months on three legs, from ringbone, made perfectly sound by the application, once a day, of an ointment composed of half an ounce of red precipitate; half an ounce of blue stone; that of a pint of turpentine, thoroughly mixed. Keep the hoof greased. mixed. Keep the hoof greased.

Another Negro Outrage... A Black Fiend Attempts to Violate the Person of a Respectable White Lady.

Bribed into committing acts of lawlessness and crime, by a confident expectation of release from the Penitentiary, if convicted, it must have been noticed that in various localities of late, negroes have been guilty of outrages more or less aggravated. The last we have to relate occurred in Springfield, Robertson county, on Friday night, and was no less infamous than the attempt of a black secondard to outrage the person of a respectable white woman. It appears that the lessness and crime, by a confident exwhite woman. It appears that the wretch dragged his victim into an outhouse or barn and would have accomplished his purpose if the screams of the frightened woman had not attracted a number of white men to the spot. They had the satisfaction of arresting the villain, who is now confined in the Springfield jail. Last accounts from there are to the effect that the prisoner is apprehensive of being forcibly taken out and lynched, but, as we learn, there is no disposition on the part of the citizens to anticipate the course of the law.—Nashville Banner, 11th. the law .- Nashville Banner, 11th.

THE Republican Governor of Alabama has vetoed the bill to take the election of Presidential electors out of the hands of the people, and his action is sustained by the honorable portion of his party in the Legislature. The veto created a great flutter among the Radicals, but finding that they could not pass the bill over the Governor's objections, a resolution was introduced and passed for the Legisla. roduced and passed for the Legislature to take a recess until the lat of November. In discussing the bill the Governor says :

Governor says:

"It cannot but be regarded as remarkable that the first Republican Legislature convened in Alabams shall, in the face of the principles of its organization, which every Republican licin professes to hold dear, deny not only to the colored, but the white man, the right, by his vote, to indicate his choice for President and Vice-President of the United States, and take the matter in its own hands. What excuss can there be for it? Is it mere party expediency? If so, then it is an shanknownest of principles, or an acknowledgment that the material out of which the Republican party is composed cannot be trusted. party is composed cannot be trusted in other words, it is to say that the colored man will not do to be trusted."

THE GETTYSBURG

SKY-LIGHT GALLERY.

THE undersigned takes picasure in an nounering to the citizens of Gettysburg and the public generally that he has removed from his old rooms on West Middle street, to Battimore street, and nearly opposite the store of Fahnestock Brothers. The room he now occupies has been recently fitted up expressly one, enabling him to take pictures insal shades of weather, and with a correctness unequalled any where else.

LIFE-LIKE PHOTOGRAPHS, of every size and description, executed in the finest style. Farticular attention given to the style of the style o —THE PORCELAIN PICTURE, which for their beauty and durability are unsurpassed. We are prepared to carry on the business in all its various branches, and having had considerable experience we run no risk in GUARANTEEING PERFECT SATIFFACTION. Our facilities for a full display of our skill are unequalled by any other Gallery in the county, and we would therefore invite every one to call at the NEW GETTYSBURG SKY-LIGHT GALLERY.
