THADDEUS STEVENS & THE BONDS Extract from the speech of Thuddens Meyens, in the House of Representa-tives, in July last.

Mr. Stevens said that "If he knew that any party in the country would go for paying in coin that which was payable in money, thus enhancing the debt one-half, if he knew there was such a platforn and such a determination on the part of his own party, he would, with Frank Blair and all, vote for the other party. He would vote for no such swin-dle on the tax-payers of the country. He would vote for no such specula-tion in favor of bond-holders and miltion in favor of bond-holders and millonaires. He repeated (though it was hard to say it) that even if Frank Blair stood on the platform of paying according to the contract, and the Republican candidate stood on the platform of paying bloated speculators twice the amount agreed to be paid to them, and of taxing his constituents to death, he would vote for Frank Blatz; even if a worse man than Seymour was on the ticket.
