What think you, follow-aitizens, of such tactics as these? I confess they are entirely new to me; and if they shall in any wise recommend their author in your favor, I will have to acknowledge that I have wholly mistaken the character and political tastes of my party associates for the last twenty years. I can only account for them by the fact that the man who uses them has drilled so long in the which the contest in Bedford County ranks of our enemies, and come over to us so recently, that he has brought his old habits and tactics along with him. They are enough to raise a reasousble doubt of the soundness of his conversion to the true political faith.
