The Next President.

The great impending struggle for the Presidency will soon commence. Within one year from this time the American people will have determined whether or not the centralization of the powers of the government in the hands of a corrupt oligarchy, the plundering of the tax-payer by thieving officials, the denial of equal political right to the proseribed citizens of the Southern States, and the substitution of the will of a party for the fundamental law of the land, shall conse or continue. It shall be the casnest and unflagging endeaver of the Patriot to educate its readers in the belief that the time has come when an earnest and determined effort must be made to arrest political power from the hands of our present rulers. It should, therefore, by read by every voter who can be induced to cast an honest, intelligent and patriotic ballot. To this end it has been determined.
