If we knew but to begin—
I'we knew but how to profit By wisdom deatly bought : Twas only a passing thought, my friend, Only a passing thought.

Why should the nation fight, my friend, Why should not warfare cease And all the world would repose In unnecence and peace.

It seems to me, as I say to thee,

The weak may yet be strong; There needs but the love of breath and faith To right the weary wrong -To right the weary wrong, my friend, Throughout the world mistaught Twas only a passing thought, my friend,

Only a passing thought. But though only a passing thought, my friend You know as well as I
That thoughts have a fashion to grow to deed
Under the ripening sky.
So pars it on; let it walk or run,

Or fly on the wings of the wind Or, better still, on the wings of the Press, For the service of mankind; For the service of mankind, my friend, That needs but to be taught:

aising good lambs.

A Sugar Plantation.

the grubs; it is not often that sheep die hay. Let the breeding ewes have all Francisco. they can eat. And those with a lamb at Max-MIL their side should have a pound of bran noyed by them. To prevent them, keep the sheep's poses smeared with tar dureach per day, in addition, and a few roots, if they can be spared. Make a the the warm summer months, when nall pen in the yard, with slats about ten inches apart, or just wide enough to LUMB AND SALT MIXTURE.-"D. V. the lambs to go through, and put n a few small troughs, and keep the ambs supplied with oats, corn-meal, bran, and sliced roots. This is one secret of

H.," Washington Co., Ill., asks bow lime and salt should be mixed for applying to wheat, and when it should be Slake the lime with a quantity of until it can take up no more, sufficient to reduce the lime to a fine dry powder. Five or six bushels per acre of this mixture may be spread early in spring over they can get clover. Its effect is generally to stiffen the straw

Conx,-Nothing is more important in and other impurities, is the most imporraising corn than to secure a "good start." It is half the race. A fine, mellow soil is of the first importance. The best way to secure this depends on circumstance. tant work to be done now. cumstances. Every farmer must deter-mine this matter for himself. As a rule, we seldom harrow the land sufficiently. Corn can not thrive among clods. Our own practice, when planted in hills, is to oak the corn from twelve to twenty-four A turn in the road suddenly brought us in hours in warm soft water, and dry it with view of the cane field with the hands at hours in warm soft watch, and coolies, the men naked except as to the same thing may be done when sow-

buttermilk. My wife, following the good old Virginia style, delights in taking charge of the dairy department after family. He is a Spaniard.

The administrator abandoned the breakit comes from the stable to the house. The administrator abandoned the break-fast table when our party arrived, and after crocks and placed in the cellar for twen-ty-four hours, then skims the cream, which is put into two gallon jars, to each which is put into two gallon jars, to each Sugar making, though somewhat compliof which one pint of the buttermilk of the last churning is added, keeps the eream at about a temperature of sixty-five degrees, until it gets to the consistency of clabber, which generally takes about forty-eight hours, when with but little trouble the old-fashioned dasher way, while the juice runs into troughs,
