Horse Disease. BUFFALO, October 22.—The horse disease is still on the increase, and over seven-eighths of all the horses in the city are afflicted.

The Express this morning publishes a table showing the number of horses sick twelve weeks in this city, which shows that out of 415 horses only 13 are able to work.

On the canal it has broken out but very little, but should it become general the damage to shippers and carriers cannot be estimated.

The symptoms appear to be a bad cough, with a running of the nostrils, and horses afflicted with the disease eat and drink but little.

LOCKPORT, N. Y., October 22.—The horse disease is prevailing here to an alarming extent. The stables are all closed.
