moonlight deep and tender, A year or more agene, Your mist of golden splender Round my betrothal shone !

O. olm loaves dark and dowy " The very same ye seem, The low wind trembles through ve.

Ye murmur in my dream. O, river, dim with distance, Flow thus forever by, A part of my existence ithin your heart doth lie!

O, stars, ye saw our meeting,

Two beings and one soul, Two hearts so madly beating To mingle and be whole. O, happy night, deliver Her kisses back to me

Or keep them all, and give her A blissful dream of me

Farm, Garden and Household.

MTLK .- The milk producers in the

the oyster on the lower with pepper-sauce and butter, or pepper, salt and vinegar in lieu of the sauce, and you

Single part of a physical part of the part or some other crop to cut up green) ences, should be made for droughts or short

ing, and the milking should be done, as nearly as possible, at the same hour each day. It is eminently true that the better the care taken of the cows, and the great fire in Boston to the N. Y.

whole physical life, quickens the circulation of the blood, heightens the color, rections. Now, the streets in all this Milk.—The milk producers in the neighborhood of Chicago have formed an association for the protection of their interests. At a late meeting they decided to fix the wholesale price of milk for the six months, beginning with October first, at eighteen cents a gallon. During the summer it was twelve and a half cents a gallon. During the summer it was twelve and a half cents a gallon. The association is new, but is growing in strength.

FRUIT TREES.—It has been suggested more than once that in setting out fruit trees, they should be placed in the same position with reference to the points of the compass as before transplanting.

Indicating is more unadversely make up the paisonous chalice which adden with books and valuables, but the whiskey-drinkers in that city commend to their lips. One sample of Dublin whiskey was adulterated with naphtha, and dark-nimmed, wearied eyes. Too much sleep is almost as hurtful as too little, and is sure to bleat the person with a pallid and unwholesome fat. The growing in strength.

FRUIT TREES.—It has been suggested more than once that in setting out fruit trees, they should be placed in the same position with reference to the points of the compass as before transplanting.

if it is quick—upon the top of the stove, if it is not. When they open they are done. Pile in a large dish and send to table. Remove the upper shell by a dexterous wrench of the knife, season the oyster on the lower with pepper.

That her allowance is too small. That she never looks fit to be seen. That cook drinks. That there is somebody in the bouse. That Mrs. Orphington is dreadfully made up, or not so very good-looking, after all.—

That her allowance is too small. That she allowance is too small. After a little time I descended again to the street, and once more faced the fire at close quarters. Buildings which but an bour belore seemed saved; now laid in piles the craeks.

That her allowance is too small. That she allowance is too small. That she allowance is too small. That she allowance is too small allowance is too small allowance is too small allowance is too small all

or some ofher crop to cut up green should be made for droughts or short feed in the fall. Pastures should have plenty of pure water in them, easily accessible at all times. Shade tree or classible at all times. Shade trees or the sorrolling heat of the sun are essential to the comfort, and consequently to the profit ableness of the cow. When the weather is warm and the files are troublesome, they should have a pasture to run in lights. At this season of the year tey whole personality of the latter—and the damp soil, and reades the damp soil, and reades the damp soil, and reades thousand dollars, while feed more in the night than during the day. Good careful hands at the most successitud it iterary men cannot have should have the same cows assigned to four hundred thousand dollars, while profit in the proper management of the dairy Each milker.

A Manchester (Vt.) farmer lost fifteen sheep by bears, and then the animals because the the hand. Miss Mattida this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in the satisfaction has each of the common this traps and all the satisfaction in the state of a sort of worship. That indefining and this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in this, and set traps; but the bears stole in the profit all the second in the same traps; but the bears stole in the same traps; but the bears stole in the same traps; but th
