

Farm, Garden and Household.

Ferrous.—A bone file is a bad thing, and there are numerous so-called remedies for it. Doubtless an application which is successful in one case, may fail in another.

Trochoceros.—Joseph Harris says that he has never observed any of the breeding of thoroughbreds unless he is prepared to bestow more time, thought, care, and labor in their management than on common animals.

"Will Farming Pay?"—This topic has been discussed by the different agricultural journals, and the answer is in a single word, and that answer is embraced in a single word, and that answer is embraced in a single word.

Cerise Marmalade.—Procure oak or white ash berries, preferably clean and sweet, but ten minutes in boiling water, and then wash in cold water.

French Cream Cakes.—Beat the yolks of six eggs; add two cups of sugar and two tea spoons of vanilla essence.

How to Build a Cheap Farm Gate.—A correspondent of the Ohio Farmer says: "The old practice of building gates with heavy iron bolts and iron bands riveted together, is antiquated."

The Serfs of Russia.—We are told by Mr. Leons Levit that in Russia "the people are yet in a low condition, and the serfs are still in a state of ignorance."

INTERNAL REVENUE STATISTICS.—The report of the Commissioner of Internal Revenue shows the increase or decrease of collections from different sources for the first four months of the present fiscal year.

POSITION IN SLEEPING.—Sleeping should always be as arranged, if possible, to allow the head to rest on the pillow, and the feet to be elevated.

ALEXIS.—The foreign newspapers are just now making merry over a story which is going the rounds relating to the Russian Grand Duke Alexis, and which states that he is suffering from a disease which is not named.

SEVENTY-FIVE PER CENT.—Seventy-five per cent. of the weather bureau reports for 1874, as compared with the service of the War Department, proved to be correct.

Fire-Proof References

A new idea in reference to these is mentioned by a scientific paper. If a house could be made in such a way that it would be fire-proof, it would be a great improvement.

THE WRACK OF THE GOLDEN HIND.—More than 25,000 persons, including Prince Christian, the Prince of Wales, and the Emperor Napoleon, were on board the Golden Hind when it was wrecked.

Surprised Him.—When James E. Murdock, the actor, resided a few years ago on his farm in Ohio, and tilled the soil like any other farmer, he had a cow on the place.

Living Very Cheaply.—Young men often write us stating the amount of their salary, or profits, and asking if it is safe and prudent for them to go to Europe on a tour.

COAL.—Prof. Ansted mentions, says the London Standard, that a quarter of a million of square miles of the earth's surface are covered with sandstone and shale of the carboniferous period.

THE FOX QUESTIONS AS ENGLISH.—Derogatory as the English are to the fox, and the English are to the fox, and the English are to the fox.

STREPT.—The past year was fruitful in suicides as well as accidents. In 1873 12 persons committed suicide, and in 1874 it had risen to 140.

THE BARRISTERS.—Look on the bright side, and you will find that the times may be hard, but it will make them no easier to wear a gloomy and sad countenance.

CATTLE TRADE.—The cattle trade in New York for the past year has been heavy. The prices of all classes of live stock have ruled more uniform than for many years.

But little intelligence has been received from the Cottonwood, Utah, avalanche. It is asserted that twelve men were missing, and were supposed to be in the mountain, a distance of a mile, with a freightful speed and force.

Family Attachment

One of the saddest things about a large family who have lived happily together many years, is the scattering to distant homes, which takes place as they grow up, one by one.

When James E. Murdock, the actor, resided a few years ago on his farm in Ohio, and tilled the soil like any other farmer, he had a cow on the place.

When James E. Murdock, the actor, resided a few years ago on his farm in Ohio, and tilled the soil like any other farmer, he had a cow on the place.

Convinced by a Gun Shot

The Austin (Tex.) Statesman tells this: Ben Shelby, Arthur Shelby, Ball Wood, and James Shelby, are the victims of murder in the first degree, in Burnett County, this week, and sentenced by Judge Turner to be hanged on Friday, the fifteenth of January next.

On examining the gun of Ben Shelby, a paper was found in it, and another piece of paper that had evidently been fired from a shot gun was found in the chimney corner of the house.

On examining the gun of Ben Shelby, a paper was found in it, and another piece of paper that had evidently been fired from a shot gun was found in the chimney corner of the house.
