### Farm, Garden and Household.

### Farm News and Notes.

The increase in the wheat crop last year above the previous one was over 12,000,000 bushels, mostly in California and Minnesota, Wisconsin, Iowa, and

The grasshoppers are devastating the country near Silby and Worthington, Iowa. The same pests are in Colorado, though too young to injure small

In England street trees are generally the property of the city, and are plant-ed by the authorities and under the oversight of the city councils, instead of being left to individual notion, as in our free country.

Mr. Mechi, the celebrated English agriculturist and merchaat, recently used these words: "It is precisely be-cause British farmers have their customers, the British manufacturers, at their doors, and that other food-producing countries have not manufac-turers, that British agriculture is rich and thriving."

Bone dust is now exported from Australia to England. It is compressed into blocks three inches thick and six inches square, weighing about six bounds each. A ton of this compressed bounds each. A ton of this compressed pone dust occupies 26 cubic feet. The que y occurs, if the millions of tons of

vill be labor lost to water trees on the lawn without exercising this precaution, as the water will disappear before a hundredth part of it has reached the roots. Straw, hay, lawn-grass, weeds, shavings or tan-bark will make an exroots. Straw, hay, lawn-grass, weeds, shavings or tan-bark will make an ex-cellent mulch. Spread the mulch three pailfuls of water around each tree, and the water will permeate the entire soil, keep it damp, and supply the moisting status of the reveal at the strate many status of the strate many strates of the strate many strates of the strate many strates of the strates strate
