Prices for windows, with netting and fixtures complete, from 50 cents to \$1.25. For doors, with netting and fixtures complete, \$2.50 to \$4.00. J. W. Boughton, 100 Chestnut Street, Phila. June 19-2m.

For incident: William D. Mathias, a young man twenty two years old, who has been engaged for the past six months in selling sewing machines in this city and immediate vicinity, died, as was supposed, about three o'clock last evening, of brain fever. He was placed in bed, and there remained forty hours. To-day the relatives and friends of the family assembled together for the purpose of paying their last tribute of respect to the dead, when it was noticed his skin had assumed quite a natural appearance, and on further examination it was found that he was not quite extinct. He is now in the hands of the physicians, and from last accounts was doing well.

A GERMAN MURDERER HIS WIFE AND THEN ATTEMPTED SUICIDE. New York, Aug. 27.—A terrible murder and suicide occurred a few minutes after 12 o'clock last night in Centre street, when a German, named Henry Westlich, shot his wife Christina and then himself. It appears that they have been separated for some time, and Westlich, who lives at 220 Centre street with a friend, the husband came last night to talk matters over. Upon hearing this he drew a revolver and fired the two women were killed. The poor woman screamed, fell to the ground and a few minutes after expired. The husband placed a revolver to his own mouth, fired through the back of his head, and carried part of his tongue away. He was taken to Centre hospital still alive, but cannot survive many hours.

The losses by the recent flood in Delaware is estimated at \$200,000, of which \$60,000 may possibly fall on the Delaware and Chesapeake canal, \$100,000 by vessels and barges stranded on meadows and \$40,000 by the Delaware Railroad.

FEAST OF FAT MEN. Nova Scotia had a severe Gale last week. Great damage to shipping, the fruit crop has been almost wholly destroyed within a radius of 200 miles, fences, trees and barns prostrated and shipping damaged. Not in the memory of any resident has such destruction been known. At the breakwater, erected at an enormous outlay, the sea played fearful havoc. All the new work and a portion of the old is gone. The docks are also destroyed. The damage to the wharves and piers is estimated at \$100,000, while the other damages, including that to shipping, will probably foot up over \$100,000. It is thought over 100 vessels have been driven ashore at the several harbors. Cape Breton, Sevenson, and barke and schooners are ashore at Sidney. It is said that this ashore to include all the vessels destroyed, not a few of French schooners put in there during the gale and in all probability many of them have been wrecked. Even the wharves are being washed away, and every wharf in the harbor and a number of stores are destroyed. The brick Nekina, in shore at Sandy Point with the fore mast gone and full of water.

In Antigonish county many barns were scattered to the winds, and the destruction of crops is immense. The wharf at Antigonish is destroyed and a schooner which was fastened to it by the mainmast, is ashore at Goubyrough, and every wharf in the harbor and a number of stores are destroyed. The brick Nekina, in shore at Sandy Point with the fore mast gone and full of water.

Two residents of Antigua county were drowned the other week—Thomas Kreider, of Fermanagh twp., and Jacob Wilson, of East Waterford. During a storm recently Henry Goss, of Decatur twp., Millin county, lost his life. He was struck by lightning while under a tree. The portable steam saw mill of Dunbar, Woody & Moore, at Ellipsisport, was blown up on Thursday morning, about 7 o'clock, completely demolishing the mill, killing one man and wounding several others. The building was torn to atoms, the engineer, named Lockwood, his body was fearfully mangled; his shoes were torn from his feet, and the sole of one of his shoes found several rods from the body, which had been blown twenty rods from the mill upon the logs. A man named Dulute was badly hurt. S. Ranck had his hand badly crushed, rendering amputation necessary. C. Dereher had his leg hurt.

Five residents of Wilkesbarre accidentally met the other day whose aggregate weight was 1,300 pounds. The lightest kicked the beam at 200 and the heaviest at 285. THE MODOGS TO BE HANGED. Washington, Aug. 23.—The War Department promulgates in general orders the sentence and in the case of the Modoc captives, Captain Jack, Schonchin, Kopeck, Jim, Boston Charles, Barcho, alias One-eyed Jim, and Slielock, alias Ok, who were tried by military commission for the murder of General Canby and Commissioner Thomas, and for assault on the United States Marshal, Peace Commissioner. They are found guilty of the specifications and charges and sentenced to be hanged. The proceedings have been approved by the President and Secretary of War, and the sentence will be carried out at Fort Leavenworth, Kan., on the 2d of October, under the direction of the General commanding the Department of Columbia.

The Yellowstone expedition, under Gen. Stanley, has had some severe fighting with the Indians. On August 4 the expedition was attacked on the river by a large party of Indians. The latter were repulsed after a severe fight with the loss of several warriors, while the expedition lost Dr. Hensinger, veterinary surgeon, cavalry officer, and Private John Ball,
