Only a Baby Small. Only a baby small, Dropt from the skies Only a laughing face. Two sunny eyes ; Only two cherry lips One chubby nose Only two little hands, Ten little toes Only a golden head, Curly and soft ; Only a tongue that wags Loudly and oft : Only a little brain Empty of thought Only a little heart, Troubled with naught Only a tender flower. Sent us to rear Only a life to love While we are here

Spring is Coming.

With drifting snow the fields are hid. The frost is on the pane : The frozen river moans and groans And clanks his icy chain. But a happier time will soon arise For under the arch of southern skies. The spring is coming again, sad eyes, The spring is coming again.

Through leafless boughs the rueful wind Wails low his drear refrain ; And from the icy north the storm Comes sweeping down amain. But skies shall soften, and storms depart, And buds shall swell and verdure start, And blossoms cover the plain, faint heart For spring is coming again.

The spring is coming again, good sooth, And store of cheer she brings, For icy gleams, the flash of streams, And the glint of glancing wings ; For the wintry day, the merry May ; For snow wreaths, brings she garlands gay, With many a rollicking roundelay And silvery carolings.

And if my spring-hopes should fade. And promise fruit in vain ; Should wintry sorrows chill my heart, And cloud my life with pain, I will cheerily wait for a brighter day And trust that heaven will bring the May That, brighter and gladder forever and ave. Shall never fade or wave.
