MILHEIM & VICINITY.

Reinhold, is kept busy adjudicating the claims of aggrieved litigants.

The mechanic's hall, which is 10 S. C. made mention, will be held in the Court House...

Our farmers have finished haying in grain, and are now earnestly plowing for rain.

A home-combining is to be held in the Evangelical church of this place, some time in August.

The discolored Millheims, of whom we made mention last week, are again enthusiastically happy.

Another of Africa's noble sons has hung out his shingle in this place, as barber and hair dresser.

One of our anglers recently caught a sucker 20 inches in length, and now wants to blow it out.

On the Fourth, we saw a sucker nearly six feet long, and was a whizz nacker.

The Millheim and Howard baseball clubs, played a match game on Saturday last...

Our boys were beaten, and excuse themselves on the plea that they were not "practiced like the Howard boys."

The Howard boys went home in the evening, not drunk, but with a tickle in their throats.

REBERSBURG & VICINITY.

"Fire" under the bag wing. "Huckle-berrying" has commenced. Apples are a-bug.

Harvest. The same is over. We can boast of a middling good crop, some fields were poor, while others were very good.

Our farmer has commenced a primary subscription school in our hamlet.

A second fire broke out in the mountains a few days previous, but as it appears an all-wise providence directed a wind from the west, but much damage was done.

On last Monday while a few of our valley folks were out huckle-berrying they fell in company with two rattle snakes.

Mr. Peck and Bressler, succeeded in killing both of them, one had eleven rattlers.

George Felt of town has commenced to dig a foundation for a dwelling house which is to be erected in a short time.

THE GRASSHOPPERS.

The dwelling house on the farm of Jeremiah Kline, in Brushyville, about 6 miles east of this place, was entirely destroyed by fire on last Saturday morning.

Nothing of much account was saved except a few barrels of corn, and a day of clock, sewing machine, large egg dinner table, and scarcely any other clothing.

The house was occupied by Mr. Levi Long, tenant on the farm, and as he had taken particular precautions against fire the evening before, he cannot account for it otherwise than that it originated from the chimney.

Mr. Long had no insurance upon his personal property, and the loss is a severe one for him.

DISASTROUS FIRE.

We regret to learn that the extensive flouring mill of Henry & Steiner at Union Furnace, near Spruce Creek, on the Pennsylvania railroad, in Huntingdon county, together with all its contents was totally destroyed by fire a few weeks ago.

There was stored in the mill at the time some 5,000 bushels of wheat, 1,000 bushels of corn, 1,000 bushels of rye, 3,000 bushels of other grain, and about 100 barrels of prime flour, all of which were burned, together with the books of the mill and the Union Furnace, and a portion of the building.

Hagerly's mill was one of the most widely known in Central Pennsylvania, the flour manufactured there being of the best quality and eagerly sought after by all good housekeepers.

A neighbor and tenant, upon whom the loss was insured, had no insurance, the barn was insured in the Danville Company.

A NEW FEATURE.

An important change has been made by the Legislature in the granting of letters of administration in this State.

Heretofore all executors or parties applying to the Register for letters of administration must file an affidavit before that officer, setting forth as nearly as possible the day and hour of the testator's death, before letters will be granted.

It will be well enough, therefore, for parties applying for letters of administration to bear this fact in mind and ascertain the precise hour when death occurred.

A CONNECTION.—We among many others of the newspaper fraternity were led into error in stating some time since that an important change had been made in the defining the rights of landlords and tenants, which purported to be "an act concerning property from land and sale on the executions and distress for rent, etc.," virtually repealing the \$300 exemption law of 1849.

Such a bill was before the legislature, but was not passed last winter, as stated, and as the bill was not passed to misapprehension and difficulty, we make the correction for the benefit of all whom it may concern. The law remains precisely the same.

THE GIPSON CHAMPION WASHER.

This wonderful and much needed invention is owned by J. W. Gipsen, who has been in our place for a short time and has sold quite a number of machines.

This is the recommendation he gives, and for the present inquirer of Judge Love, Miss Fern, John Allen, J. W. Gipsen, H. H. Hissel, M. Foreman, Mr. Philip Burr, Mrs. Hiram Durst, Mr. J. M. Emerick, and Mr. John Odenrick.

The best evidence that the Champion Washer is a good machine, is that it gave entire satisfaction in the season of dry weather—when washing is hardest, and is served by the recommendation given it by the above list of farmers wives.

SPAWLS FROM PENN.

Harvest is over and the grain all in the barns in our neighborhood, and the farmers are again rejoicing because the good Lord has again favored them with a middling good crop.

The Millheim band has been doing finely for the last few days under the supervision of their new teacher. They can play (not to boot) all in one string with-out a hitch.

Our friends, Messrs. G. W. Keen, A. N. Rishel and R. S. Zerby, left Millheim on Monday on route for Centre Hall, where they purpose to attend the Centre Co. Normal school. May success attend them.

A certain party in Penn had horses some time ago and one of them cheated the other. Now their greatest trouble is to find out which of them got cheated.

Candidates are beginning to feel "well" and some feel good and others not good so good. The time for delegate elections is coming fast and that is what makes them feel so queer.

Messrs. Elias Krenner and Frank Bowers left on Monday for Virginia, where they intend to pitch their tents if the country suits them. 10 S. C.

BE WIDE AWAKE!

The ten day assessment is availed by the New Constitution, and all voters must now be registered six days before the election, when the registration lists will be returned to the Commissioners.

As the election is to take place on the 3d day of November it will be well for every voter to see he is registered by the first day of September.

AGRAVEL TRAIN WRECKED IN THE WEST AND SEVEN MEN KILLED.

Detroit, July 18.—Near Lona, on the Detroit, Lansing and Lake Michigan Railroad to-day, a gravel train was backing up when a burning tree fell across the rails just before the engine, and with the means of throwing nearly the whole train off the track. Six men were killed outright and others were seriously hurt.

Our Reporter.

Mr. Editor.—A person from your township, last week wrote a letter to our paper, the Berichter, in which he advocates non-resistance, in which many Democrats of this section cannot concur, although some things he says are unquestionably true.

After speaking of the situation and treatment of our county in his former Senatorial relations, he says: "We never got an annual nomination in the old district, as the county along the line of the Juniata valley commencing at returned, and we are here in a district, cut off from all our old associates, in Centre county in the present Congress."

One of our anglers recently caught a sucker 20 inches in length, and now wants to blow it out. On the Fourth, we saw a sucker nearly six feet long, and was a whizz nacker.

The Millheim and Howard baseball clubs, played a match game on Saturday last...
