\*\*Reeping Eggs.\*\*

An English paper is authority for the statement that if eggs intended for setting are stored with the large and down in the statement of the statement

was an elderly man, with dyed black hair hanging long about a colorless face. A singular ravenous look was in his eyes, and he had a habit of twitching up his face, so as to show a long row of white teeth, evidently false. As e sat he would rest his thin bony hands, clutched together hard, on the front of the box, a tremulous diamond

showing that he endured strong nervous excitement.

These peculiarities I should never have noticed, but that all at once a rumor reached me, investing this man with a terrible interest. I came to know-I cannot tell how-that he had a fixed conviction that my career would terminate fatally, and a half morbid desire to be present on the occasion. Thus he never missed a night. He was always in the house, and always, if pos-

very few strawberries will be grown for our city markets without the aid of irrigation.

Calves may be turned into a good clover aftermath, or a wheat-stubble, if the young clover is thrifty. Half an onne of salt daily will prevent bloat. If they can get skimmed, or even sour milk until six months old, they will be the better for it.

Cows need extra feed, or they will and our constraints of the possibilities of failure, of mutilation, of sudden death. Doubt of my own powers tended towards real incomplete the word "Azalea."

I thought; "I will go and measure. They won't tumble on me for all they look so terrible."

And I ran over the read—forgetful of the would only absent himself for the would only absent himself for the would only absent himself for the moment—and marched the word only absent himself for the would only absent himself for the word of the word of the possibilities of failure, of mutilation on the possibilities of failure, of mutilation and the possibilities of failure, the pos
