

Gen. McCandless, Commissioner of Internal Affairs, has tendered a clerkship in that department, to Maj. Harry Foster of Bellefonte. This is a good and well-merited appointment, and the Major will do credit to Centre county while in the discharge of his duties as Harrisburg, whether he will be back here in a short time. This appointment will be pleasing news to Maj. Foster's numerous friends, and to the citizens of this county in general where he is held in high esteem. Maj. Foster is a firm democrat, and rendered gallant service to his country during the late war, and has been the efficient clerk of the Co. Commissioners. We heartily congratulate him upon his appointment, and have to express our regret at even a temporary absence from our county.

Things are just now getting a little hot for some of the ringsters in Philadelphia. The committee investigating the alleged frauds by the Board of Managers of the House of Correction held a meeting recently, and Mr. Barlow, the member making the charges, was examined by the board, contrary to law, had purchased goods for the house through members of their own firms. These bills were rendered in large amounts, and many of the articles furnished were of inferior grade. President Francis had furnished all the house furnishing goods, and had also at one time supplied 100 pounds of butter, and quantities not allowed by this article. The Secretary of the board substantiated these charges under oath.

The suspicion that a gigantic gambling scheme was being carried out in the invasion of the Black Hills country by General Custer's command gains force from the fact that the President has appointed a special commissioner to negotiate with the chiefs of the Sioux nation in regard to selling their claim to the coveted reservation. The further fact that the commission selected for this duty is an Indian trader, who is a son of the senior member of the old Galena firm of Collins & Grant, tanners, will not carry with it a peculiar significance to those who are familiar with the interior workings of the various rings which are in intimate communication with the white house.—N. Y. Sun.

A quarterly statement of the mercantile failures in this country, embracing January, February and March, records 1,733 failures in those months, and a total of \$28,440,000, or \$3,200,000 more than the same quarter of 1872. According to an estimate made by dividing the whole number of failures in 1872, 1873 and 1874 by four, the first quarter of these years showed the annexed number of failures: In 1872 the number was 1,047; in 1873 there was an advance to 1,215, and a still further advance in 1874 to 1,357. The liabilities for these periods are as follows: First quarter of 1872 to \$30,264,000; then came an increase in the same months of 1873, and the amount reached \$37,124,000; the first quarter of 1874 showed a decrease, and the liabilities fell to \$38,800,000. The liabilities of the whole year of 1872 are set down at \$121,730,000; those of 1873 at \$128,440,000, and those of 1874 at \$135,230,000. If the remaining quarters of this year keep pace with January, February and March, the total will be \$135,492,888. This is a slight increase over that of last year. The liabilities of the corresponding months of 1874 and 1875 are nearly equal in amount. New York State during the first quarter of this year there were 152 failures and the liabilities are reported at \$2,694,562. In New York city there were 197 failures and the debts are reported at \$8,490,500. In State and city, 349 failures, liabilities, \$11,815,062. In Pennsylvania 155 failures occurred and the aggregate liabilities are \$4,927,068. Philadelphia is included in this count. Massachusetts, New Hampshire and Maine are lumped, and 113 failures and \$5,514,000 liabilities recorded from the beginning of the year until the end of March. In the whole Southern States there were 312 failures, and the added liabilities are \$5,181,567. This is not a bad exhibit in a section whose trade and industries are broken down at present, and have been for years, by circumstances of a peculiar character. Another noticeable feature of the bankrupt return of the first quarter of 1875 is that the amount of liabilities shows little increase above the average of the same period of the last four years. The circular from which the above facts were taken, in commenting upon the subject of business failures in 1875, says: "Considering the continued depression in numerous interests, the exceeding severity of the winter and the lateness of the spring, the conclusion is truly encouraging. It was to be expected that numerous wrecks from the panic of 1873 would be discovered long after the storm had passed, and probably long after a few of the above failures can thus be characterized." In this city and State the business community have weathered the storm in a truly commendable manner. The number of failures are not excessive, when all the facts are considered. The liabilities are not excessive, and might reasonably be expected. To the general disturbed and unhealthy state of affairs in Pennsylvania must be added the strikes in certain sections, which have produced most unfortunate results. Men could not use capital in particular branches of business, and millions of dollars were lost. These facts, however, were not taken into consideration in this unfortunate train of circumstances, would have been propitious in all their business relations. But the country is emerging from under the cloud which has long cast a shadow upon its business and financial prospects, and we may confidently hope that each quarter will witness a decrease in the number of failures and the amount of the aggregated liabilities.

Committees of the Miners' and Laborers' benevolent association have arrived in Philadelphia for the purpose of soliciting pecuniary aid for the labor unions and citizens generally to protect them in their strikes at the coal mines. The committee consists of Messrs. Hugh, McGary and Reese Waters, on behalf of the Lehigh region, and George Shado, J. Dewey, James Dalry and William Probst on behalf of Schuylkill county. They have established their headquarters at No. 299 Race street.

Miss Ida Greeley, oldest daughter of the late Horace Greeley, was married this morning, May 2, in New York, to Col. Smith, of Kentucky, and sail tomorrow for Europe. Cardinal McCloskey performed the marriage ceremony. The Cardinal has had a run of marriages, having joined Mr. de Rios and Miss Murphy on Wednesday and General Bading and Miss Lane on Thursday, and Colonel Smith and Miss Greeley just in an appearance to-day.

Forty-one bodies have been taken from the mine at North Starbottle, England, killed by the explosion. Most of them leave large families.

Georgetown, April 29.—The negro preacher who murdered was captured this morning in the act of the negro church here. He had been concealed there since the murder and heard the funeral sermon on the 24th inst.

By the fire at Oakbrook, Wis., 500 dwellings were destroyed, causing a loss of \$2,000,000. The insurance on the destroyed property amounts to \$1,000,000.

During the year 1874 there were shipped from the Pennsylvania Petroleum Producers' association 7,774,800 barrels of petroleum being an average of 20,239 barrels per day.

repeal by a new Congress will there be any re-empowerment in that section. Touching the outrage business, Judge Kelley states that reports which have been received here are not only grossly exaggerated, but entirely untrue. He says that in all our fourteen years in Congress, "the only vote I regret having given was for the Force bill last session." So far as he could ascertain, there was no occasion for such a measure in the South. He conversed with negroes of every grade, and the universal testimony is that where a colored man is industrious, he is not only prosperous, but he is rapidly accumulating property. "It was only when I reached the political centers, such as Columbia, S. C., and mingled with the negroes, who have taken to a trade, that I heard complaints against the negroes, and in nearly every instance investigation showed that the same to be unfounded." "What the South wants," says Mr. Kelley, "is money. As is the case with a large number of people at the North who are out of work and find it difficult to make ends meet, the Southern people feel that there is something wrong, and not knowing what it is they attribute it to the radical rule of the Republican party. Judge Kelley took particular pains to ascertain whether there was any foundation for the stories of a new rebellion in the South. Questioning the negroes and the whites, the concurrent testimony was that such a supposition was an absurdity. The negroes laughed at the idea of their being reduced to slavery again, should the old Southern slaveholders come into power.

Other Damage Reported.—Rochester, N. Y., April 30.—During the late winter a large land with iron ore, bound from Ontario to Charlotte, was abandoned and is supposed to be lost with four persons.

Baden, April 30.—A storm passed over this place last night, tearing up trees and doing great damage. The lightning struck one house and it was burned to the ground. The other houses were not damaged, but are covered by insurance. One life is reported to have been lost.

A Schooner Captured.—San Francisco, April 30.—The Barkentine Maraca, thirty-two days from Tahiti, reported to the U. S. cutter Albatross, at the mouth of Cook's Bay, that she had captured a schooner on board the officers and crew of the British ship Airey wrecked on the passage from Australia to San Francisco. Sixteen were drowned. The remainder of the crew were taken on board the cutter, and the schooner was towed to the mouth of Cook's Bay. The schooner was a three-masted vessel, and was carrying a cargo of sugar, coffee, and other goods. The crew consisted of thirty-five men, and the vessel was bound for San Francisco.

Immigration Statistics.—Official returns received at the bureau of statistics show that the arrival at the port of New York during the quarter ending March 31, 1875, 12,440 immigrants, of whom \$28,288 were males and 4,212 females; of the total number, 103 were under fifteen years; fifteen and under forty, 47,767; forty years of age and over, 17,140. The countries of their last residence or citizenship were: England, 3,239; Scotland, 681; Wales, 82; Ireland, 2,896; Germany, 4,602; Austria, 278; Sweden, 33; Norway, 15; Denmark, 74; France, 33; Switzerland, 151; Spain, 67; Portugal, 3; Italy, 130; Holland, 123; Belgium, 39; Russia, 130; Poland, 59; Hungary, 39; Greece, 2; China, 9; Canada, 17; Nova Scotia, Turkey, South America, United States of Columbia, Buenos Ayres, Chili, St. Thomas, Jamaica, Trinidad, Guadalupe, Bermuda, Guyana, Holland, India, and Persia, 1 each; New Brunswick, 9; Mexico, 2; Panama, 2; Brazil, 4; Peru, 4; Venezuela, 3; Cuba, 26; Porto Rico, 3; Sicily, 4; New Zealand, 4. Born at sea, 6. The immigrants represent about thirty-five different trades. There were ten deaths on the voyage.

The Stand of the Miners.—WHAT THEIR COMMITTEE MEN SAY ABOUT THE LOOKOUT. American Laborers Taxed to Support Foreign Capitalists.—Railroad Men Oppose Crushing the Men who Work Under Ground.

Richard Williams and Joseph J. McHenry, of Luzerne, and Jeremiah Curran, James Eckhart, and John Schuylkill, representing the striking miners of Pennsylvania, are in this city to lay their case fairly before the coal consumers, and to enlist the sympathies of the people as to the high price of coal. They are passionately, and their cause, as presented by their statements, commands attention.

"We must show to the public," said the chairman, yesterday, "that the miners are not to blame for the high price of coal. At the first of the year, when we met our employers, they gave us to understand that they did not want to work at all. They had a large quantity of coal on hand which they would not sell for less than \$2 1/2 a ton. 'Don't talk that way to me,' he warned, 'I will shake your fist at me.' 'You were a shaking his fist?'"

"That's a lie—an infernal lie!" "Don't call me a liar, you old blackguard! I've got you up with you for forty years past, but don't call me a liar, and don't lay a hand on me!" "Let me go, you can go now, this minute!" "I haven't spit in your freckled old face yet, but I may if you provoke me further!" "Who's got a freckled face, you old Turkey-buzzard?"

"You were a shaking his fist? He made a motion as if he would strike, and he seized me by the collar, and he tried to hit me over the head, but he twisted up on his hands, and he said, 'Let me go, you old blackguard!' 'Let me go, you old blackguard!' he repeated, and he said, 'I will shake your fist at me.' 'You were a shaking his fist?'"

"That's a lie—an infernal lie!" "Don't call me a liar, you old blackguard! I've got you up with you for forty years past, but don't call me a liar, and don't lay a hand on me!" GROWING UP IN CHRIST.—Rev. Dr. Will preached his first sermon as pastor of the Union Congregational Church, in Brooklyn, Dr. Will for the past three years has been the pastor of the Seventh Avenue Methodist Church, and for nearly twenty years has been preacher of the Methodist doctrine; the change on his part, therefore, was not merely a change of flock, but a change of denomination as well.

At the close of the regular morning services, Dr. Will announced as his theme, "growing up in Christ," his text being: "But speaking the truth in love, may grow up into him, who is the head, even Christ."—Ephesians iv. 15. The speaker said that the influence of Christianity, in its relation to the human mind, is to give it a new direction, and to give it a new strength. It is to give it a new direction, and to give it a new strength. It is to give it a new direction, and to give it a new strength.
