Thoughts on Saturday Night.

No man ever led a happier except he who has a good wife. It is impossible in a good man to be a fool. From the lowest depth there is a path to the highest height. No man can be a philosopher who has no common sense. No man can be a philosopher who has no common sense.

A Healthy Brain.

No sound working brain without enough good blood to build it, repair it, and furnish the material for those muscular and nervous energies which are essential to all nervous actions, intellectual and volitional, as well as those of lower grade. No good blood without proper diet and exercise.
