ered, is the best garden soil.

butter into rolls and wrap each roll separately in a clean white rately in a clean white muslin cloth, g up with a string. Pack a large jar weigh the butter down, and pour the brine until all is submerged. as well as the first method suggested.

A Valuable Oil.

If you want to awaken Provincetown, on Cape Cod, very suddenly, eays a writer; hire a loud-voiced man to shout "Blackfish!" from the roof of a house. You will find yourself in less than two minutes in the midst of a very lively

Blackfish means money, and a capture of four hundred fish is a handsome day's work, which adds to the wealth as day's work, which adds to the wealth as well as to the fragrance of the town. Besides the blubber oil which these animals and perposes yield, there is a product of which few people, I imagine, think mash, but which is yet of considerable impostgues to all of us. This is the pecularly timpid oil which is drawn duct of which few people, I imagine, think man, but which is yet of considerable importunes to all of us. This is the pecularly impid oil which is drawn, fromethic herbones of these fish, and which is asset by watchmakers all over the world to to the world to to the formal which is asset by watchmakers all over the world to to the tragedy, so far as developed, are peculiarly touching. A beautiful little girl, while leaving the church with a fact the civilized world uses at present in all its hundred millions of watches only about two hundred gallons yearly, most of which is produced, or, more correctly, saved one hape Cod. An old man who had been thirty five years in the business of preparing this jaw oil told me that when a school of fish was caught he bought the heads, which he then tried out circulally, refined the oil by beiling it, and finally submitted it to a freezing test. Two or three men furnish the world's supply of this product, they have established their reputation and control the market; and this old man remarked that the stock on hand was now sufficiently great, and he would not save any more this year. The oil is sold by the producers for from four to eight deliberate and the color of the doors, and, without any concein the control to the market; and this old man remarked that the stock on band was now sufficiently great, and he would not save any more this year. The oil is sold by the producers for from four to eight deliberate and the color of the deed might have been committed before the few feeder circularly reflect the few

There was no strategy used in taking been all the time.) Impatient at the de-lay the organist took a pair of pincers sidered. Such a soil, all things considered, is the best garden soil."

A very good fire kindler can be made of ordinary potter's clay mixed with sulphur, and molded in the shape of an egg. When thoroughly burned it is rendered porous and will absorbe enough oil to light a fire reveral times. It should be kept in a tin box.

"What do you do for a living!" asked a farmer of a burly beggar who applied at his door for cold victuals and old clothes. "I don't do nothing much, but traveler about," was the answer. "Are you good at traveling?" asked the farmer. "Yes," replied the beggar. "Then let's see you travel," said the farmer. "Yes," replied the beggar. "Then let's see you travel," said the farmer. "Yes," replied the beggar. "Then let's see you travel," said the farmer. "Yes," replied the beggar. "Then let's see you travel, said the farmer. "Yes," replied the beggar. "Then let's see you travel, said the farmer. "Yes," replied the beggar. "Then let's see you travel, said the farmer. "Yes," and his family, also shrank from the lady well in brighter days, resolved to take the who had known the unfortunate lady well in brighter days, resolved to take the truth, treat her like a lady, for several witnesses testified that they saw it behind the library door, on a lower floor, during the day. In contradiction to Piper's statement that he had no keys which would open the door it may be stated that two bunches of keys were better instincts prompting her to acquiesce in the arrangements of her to be lifting the lock of the door in question space, thinking it the better course to tell the truth, treat her like a lady, from his pocket and opened the door. Then beds as cuttle and found the body, was a cricket bat spotted wit two feet long, one and three-eighths inches clined from sensitiveness. Judge Davis, an old-time friend of President Lincoln and his family, also shrank from the addicate task. Finally the Hon. Leonard Swetz, who had known the unfortunate lady well in brighter days, resolved to the library door, on a lower seed, to allow many of them to bear a year or two with a view to the discovery of new and valuable varieties. This is commendable—and we may add, is the only way that new, fruits can be developed of the door in question and the discovery of the door in question and the discovery of the door in question and the police have gathered testimony that Piper was seen to stoop down and speak to the little girl when she entered breach between herself and son which

only way that new, fruits can be developed.

The worst of everything is the greediness of men for land. A new comer will put his last dellar in land, and go in debt for his house and farming tools, and in ninety-nine cases out of a hundred he will, after striving hard and living poor, find himself, at the end of a dozen years, worse off than when he first began. This is the general rule of those who choose farming for their profession.

No poor man can afford to buy goods on credit, for if he does, he usually pays more for the same article than he would live paid cash; he is more liable to buy

also of well-made and well-baked bread will retain their shape, and not spread about like unsightly forms, as they will also be equally when the dough has been rendered too moist. They will also be equally browned, but not dark-colored and hard. Loaves which have been carelessly baked are sometimes burnt in one lessly baked are sometimes burnt in one part, while the dough is searcely set in another.

After waiting about fifteen or twenty trade, or occupation, employment, naments without feeling any unpleasant effects from the draught, she essayed to repeat the effort and again slipped from the draught, she resawd to repeat the effort and again slipped from the draught, she resawd to fland, over twenty-one years of age and not able to read or write, deaf and dumb, blind, insane, or idiotic, etc. The second blank refers to marriages in the county during the year ending June 1, 1875. He said he would try How She was Prevalled Cpen to Submit to and find it, and went away, soon return Treatment in an Asylum—Her Conversa-tion Concerning Her Insanity—Her De-termination to Commit Suicide Happily Frustrated.

The officers subsequently found the key on a shelf, where he told them it had been all the time.) Impatient at the de-

on credit, for if he does, he usually pays more for the same article than he would if he paid cash; he is more liable to buy goods he does not need, and is liable to pay, and which he may not be able to pay, and which may involve him in financial trouble and truin. A man who, in an open boat, risks the current of the Niagara; the current of debts gets stronger, and it carries him down.

Get the best hands, and keep them. When a man has become need to his work and employer, he is worth more than a stranger. There is a way to make me interested in their work, of satisfying their self-respect, treating them courteously and reasonably, giving them strictly responsible for failures, and above all, by paying them promptly and liberally, that will make their work worth double what it would otherwise be. As land advances in price, more labor must be expended on it to make it pay a profit, and by-and-bye we must be a settled laboring class. We are now in process of educating this class of men, and must do it by good management.
