Before I proceed to state my views of what the duty of my position if chosen briefly the condition of public sentiment regarding the past and present management of this department of our State affairs. To say it is one of wide and almost universal distrust is a mild term to employ. The secret character of its management has aroused suspicion of the honesty and integrity of those who have been selected to discharge its duties. I make no averment of dishonesty against the present incumbent or his immediate predecessors. They know as well as I do that truthful statements at short intervals would enable the public to judge their conduct. This alarming development of the official conduct of Robert W.
