Served in this way, you have a nice vegetable, much more delicate than boiled cabbage, and suitable to eat with any kind of meat you may chance to have on hand.

PURIFYING CIDER BARRELS.—A correspondent of the Boston Cultivator accomplishes it this way: I cleansed a cabbage as new one. I put about two quarts of lime in it and filled it with water and let it stand 24 hours, then has always been looked upon as something appalling in its dimensions. ## Character Makes the Man. The man of character is always the

man of iron nerve; he may be neither a great statesman nor politician; he may be humble in his associations and his aspirations; but, with all these excep-tions, if he has character, his heart is right, his integrity is unshaken. He ooks on truth with a clear vision, actdictates; he does not fear nor shun the face of his fellow-man, for his soul is white with integrity, and he looks humbly and trustingly up to the eternal source of truth—and his fellow-beings, in a leavier source look in a lowlier sense, look up to him be-cause he is trustworthy, and, in short, he has character—good and stable charac-ter. Character is the corner-stone in individual greatness—the Doric and splendid column in the majestic structure of a true and dignified man, who is at once a subject and a king. Such is the true type of perfect man earth belongs his corruptible body—to another and more enlarged sphere, his soul, stamped with divinity.
