The first cases that came before the grand jury were the Odenkirk and Durst cases—the little 4th of July difficulty and the unpleasantness, on election night.

The grandjury found true bills in two indictments for assault upon John Odenkirk and upon trial Mr. Aaron Durst plead guilty, and the sentence of the court was that he pay the costs of prosecution and $5 fine on the one indictment and $15 on the other. Aaron seems satisfied with this getting off.

About six miles from Shamokin, Northumberland co., one evening last week, seven thieves entered the residence of Mrs Billman, a widow, while she was at the barn milking. While the depredations were in progress a son-in-law of the lady named Henninger approached the house. —He was warned off by a sentinel, who fired at him as he retreated to his own house. Henninger ran up stairs, secured a gun and fired three shots at the robbers, who had congregated on the outside, killing one of them, Philip Hughes, of Shamokin. Another of the robbers, with whom they fled, was wounded. They were tracked for several miles to a ravine, where a large quantity of blood on the ground showed that they had halted with their wounded comrade. It is supposed that the fellow has since died. Martin Farrel, one of the alleged robbers, was arrested near Pottsville. One of the evidences of his guilt were his bloody boots. —Mrs. Billman was robbed of about $2, 100, none of which has been recovered.

—Thanks to those of our friends who responded to bills sent them by sending the "needful." Will others please follow suit?

WOODWARD AND VICINITY.

The new distillery is now in motion, the spirits are flowing while topers are running. A side walk is thought of from the store to its grounds.

OCCASIONAL.

FROM ILLINOIS.

KANEVILLE, Kane co., Ill. Jan. 14.

For the Reporter.—It might be that some of the Reporter readers would like to know a little about the Kane co. hog trade. It is very good this year. The weather is mild all winter, and the mud deep, but we can not wait for smooth roads to get our perkers off. I did not sell my hogs yet. I have 34 to spare, they will weigh in the neighborhood of 400 or over. Pork sells by lump or weight, just as a man wants to sell.

B. Gramly, formerly from Brushvalley sold 53 head for $1484—$28 per head—how heavy they were the buyers know but neither Ben or I know. He lumped them; pork was selling then at $6 80 per 100. He feels altogether different from what he did when he lived in old Brushvalley where he was not used to get pay for his year's work; here he gets big pay for it. Many farmers that own 160 acres sell 12 to $1500 worth a year. A good many farmers take their hogs direct to Chicago.

You should never put the weight of big hogs in your paper and send it out here; because we can beat you all hollow.

Some dressed pork sells readily at $8.00. There is not much sickness this year. We had no sleighing here yet this winter, but had our share of mud and rain. It is thawing now. NEVER MIND.

LYNCH LAW.

Illicit Love and Murder.

Richmond Va., Jan. 22.—A telegram received here from Barboursville, W. Va., on the line of the Chesapeake and Ohio railroad, states that the body of Charles F. Meeting a young and prominent citizen of Cabell county, West Virginia, was found buried in his stable. He disappeared on Sunday night, and his wife told plausible stories of his absence which for a time misled the neighbors, but at last suspicion grew so strong that search was made with the result indicated.

Cincinnati, Ohio, Jan. 23.—A Gazette special says: Edward Williams, who with Mrs. Meeting, was arrested for the murder of the latter's husband, was taken from the jail at Barboursville, W. Va., last night, and hanged by a mob. The prisoners were assured by a minister that sufficient evidence of their guilt had been obtained and that the jail was surrounded by a mob of excited people, but both denied any complicity in the act, although the minister continued praying with them and asked a confession. The mob finally forced the keys from the jailor, took Williams out and placed him under a tree in the court house yard, where, with a rope around his neck, standing on a barrel, he made a confession. He expressed a hope that the crowd might obtain God's forgiveness for their crime, as he had, and declared that he was happily started on his journey home to heaven. He died after fifteen minutes terrible agony.

Mrs. Meeting was then brought out and placing her in front of the dead murderer the crowd called for her confession. She said Williams had been her paramour for three years, that she had been trying for the last three months to poison her husband without success, that Williams struck Meeting on the head with an axe while he was asleep on Wednesday night, afterwards cutting his throat. She assisted in destroying the witnesses of the murder and in burying Meeting. She accused herself of being the cause of the murder, but begged pitifully for her life. Though the feeling was very strong against her, and the crowd voted unanimously for her execution, no man could be found who would put the rope around the woman's neck and she was returned to jail.

Williams body was left hanging until cut down by the authorities this morning.

A supplementary act to provide for the incorporation of certain corporations, approved, April 24, 1874, relative to bonus paid by corporations upon the renewal of charters.

A supplementary act authorizing the Governor to appoint additional notaries public. Agreed to.

Act to protect children of the Commonwealth in their right to acquire useful trades.

In the House, an act to repeal an act for a better and impartial selection of persons to serve as jurors in each of the counties of the Commonwealth. Negatived. The bill repeals the Jury Commissioner law and restores the old law.

The House then adjourned.

HELPING THE POOR.

Assembling of the Altoona Convention—The Topics to be Discussed.

Altoona, January 19.—The State Convention of Poor Directors met in this city at 10 o'clock this morning, about seventy delegates being present. The Board of Public Charities was represented by Commissioners Wells and Bakewell and General Agent Dr. Diller Luther. Henry Hayes, of Allegheny, was chosen president. The purpose of the convention is the exchange of views among the county officers in charge of the poor, in reference to various practical questions connected with the administration of the county poorhouses. The following are among the topics suggested for discussion:

First. Is a general revision of the poor laws of the State necessary?

Second. The proper and most judicious mode of distributing out-door relief.

Third. The general management of almshouses and employment of the inmates.

Fourth. What to do with the children in our almshouses.

Fifth. The best and most effective mode of disposing of "tramps," and what legislation is necessary to check the growing evil.

Sixth. Should insane persons be kept in almshouses or in the hospitals provided for the maintenance of the insane?

The morning session was consumed in the election of officers, appointment of committees, etc. H. Hayes, of Pittsburg, was elected permanent chairman. At the afternoon session the question of a revision of the poor laws of the State was discussed at length. At the evening session a resolution was adopted appointing a committee of thirteen, who shall, in conjunction with the Board of Public Charities, revise and compile all the poor laws of the State. The subject of out-door relief to paupers was discussed, and a resolution adopted declaring that personal visitation by directors should be made in all cases; that applicants for relief should furnish certificate of responsible citizens as to their needs. The "tramp" question was discussed at great length at the evening session, but nothing definite has been done.

——Doctor Hensel, of Howard, was riding along the road near Jacksonville, on Thursday last, in his buggy, when one of the axles broke and frightened his horse, which began to kick and run; but the doctor held on to the lines till he was thrown from the buggy, and unfortunately broke one of his legs below the knee. He was taken home and Doctor Dobbins, or this place, was summoned to go and set the bone in its proper position.—*Republican.*

A bill was introduced in the House on 21, to pay a bounty of $200 to every Pennsylvanian in the Mexican war.

The United States direct cable broke again on 24.

No revision of the tariff laws will be attempted at present.

France has made a categorical denial to recent rumors that she was arming.

The Republicans have been generally unsuccessful in the Spanish elections.

A vote was to be taken on the Centennial bill on 23. Its opponents concede that it will pass.

By a railway accident near Birmingham, England, a number of persons were killed or seriously injured, among the former being a son of Dion Boucicault.

There is a man in Indiana who takes thirty two newspapers, and you might as well try to ride a whirlwind on a sidesaddle as to attempt to impose upon that man.

The store of Charles Seebold, in Middleburg, was destroyed by fire, on the night of the 23rd ult. It is not known how the fire originated, as there had been no fire in the house for two days. The stock is fully covered by insurance.

Henry Ward Beecher will lecture in Altoona in March as will also Theodore Tilton. They will not speak from the same platform on the same evening, however.

The judiciary committee of the house has reconsidered its previous action limiting the Presidential incumbency to a single term of six years, and agreed to report a constitutional amendment providing for a single term of four years.

This is a bad time for strikes. They should never be indulged in when the prices of wages in all trades are declining as well as the prices of products. The shipcaulkers of New York ended their strike Friday by accepting reduced wages.

Daniel Decker has obtained a verdict for $5,762 against the Erie railway company for the burning of his hotel at Shohola, in March, 1872, by a spark from a locomotive. The company will probably appeal to the supreme court.

Eighty-three Illinois farmers, with their families, recently passed through Harrisburg for Chambersburg, Hagerstown, and other points in the neighborhood, where they expect to spend the rest of their life. Is the tide of emigration turning eastward?

INGENUITY OF BURGLARS.

At the robbery of the Grafton (Mass.) Bank, the tools used were so numerous and bulky as to make a fair load for a horse to draw.

The burglar decides to try the drill, but the metal walls of the safe are of such hard temper that an ordinary drill is powerless on them. He is ready for this and sets the "combination blow-pipe" to work. This is a blow-pipe which directs on the spot to be attacked a flame of combined oxygen and nitrogen gases, and the intense heat softens the metal to that degree that the drill makes a speedy impression upon it. The hole once made, the blast is introduced, and the safe blown open. But possibly even the combination blow-pipe fails, but the modern burglar is ready with another appliance. He has an air pump to which two rubber tubes are attached. To the end of these a metal trough, with flat edges, is joined. He places this trough flat against the safe, so as to cover the joint of the door in the frame, and carefully fixes it there with putty. With the same material he stops up and makes air-tight the remainder of the crack only leaving one space uncovered at the bottom of the door. The whole safe is now practically a part of the air-pump. He begins to pump; the air in the safe is exhausted, and more rushes in through the uncovered space under the door. Here our burglar holds a paper or card on which fine gunpowder is spread, and the rush of air carries this inside the safe. The pumping is continued till the requisite charge is introduced, and it is then exploded.

The blow-pipe and the air-pump are the latest as they are the most dangerous tools in the burglar's outfit, and as soon as they were known, which has not been a great while, it became evident that safes must have some new appliance specially adapted to resist them. Safes made only to withstand the attacks of steel wedges, crowbars, and sledges, would give way at once before the more subtle and silent operations of these newest of tools. Therefore the safe man reconstructed the doors of his safe, and made them fit into grooves which were packed with rubber, so that between the doublings of the grooves and the great weight of the door, when it swung in and was locked, the elastic material made the joint perfectly air-tight. Against this the air-pump was useless; but the blow-pipe was not so easily provided for.

To meet this it was necessary to discover some new material, or some new combination of old. The makers of safes claim that they have found this in the metal called "Franklinite," a mineral composed of peroxide of iron, oxide of zinc, and oxide of manganese, in appearance much like the magnetic oxide of iron. It is found in considerable quantity only in Sussex County, N. J. The peculiarity of the metal which fits it specially for the walls of safes is that it hardens on cooling to its original density; and thus the burglar is a little better off after using his blow-pipe than he was before; whereas other metals are so softened that his drill goes right through them. The use of Franklinite and the packed joints are the latest of the improvements in safes and it is claimed that safes so constructed are proof against anything that the burglar can bring to bear on them, so far as is now known. But it should be remembered that if the safe-maker is ahead now, his friend, the burglar may pass him in the race again, and finding some new tools, rob the best safe man. Then the safe-maker must start again from the new ground, and so it goes on.

Edward Richardson, a prominent citizen of Massillon, Ohio, and a member of the City Council, was shot and instantly killed by his wife, on Monday, She says that her act was in self-defense, as he was approaching her with the avowed purpose of cutting her throat with a razor. It is suspected by many persons to have been a premeditated murder.
