St. Louis has been decided upon the place and the 27 of June next as th time for holding the next democratic na tional convention for the nomination candidates for president and vice-presi

The democracy have now fixed two things for the next presidential cam paign-the time and place for the meet ing of the next national convention Two more things remain to be fixed upon which are of vastly more impor tance to the party and the nation tha the above-the democracy must fix upor candidates for president and vice-pres dent who will be sure to win. What we want is one of the ablest and purest dem ocratic statesmen placed in nominatio for president with an unexceptionab man for vice-president. The people are tired of Grantism and crooked whiske rings, and they will vote a good demo cratic ticket if our national convention will give them the opportunity. With good nominees, there is not much need for a platform. The man is what will be looked too. We place little value upor paper platforms. The people don't cara fig about high sounding resolution but want the man with the right ring him, and that will be platform enough of itself. Suppose Gen. Washington Old Hickory were here and placed i nomination, no one but an idiot Wendell Phillips would ask for the plat form. Give us good men-let harmon prevail and with brisk work from th Atlantic to the Pacific, and the demo cracy will be triumphant next Novem-

Moulton has written a letter to th Plymouth Advisory Council, in which he says: "I send this communicati to the Council simply to say that I an prepared to prove Henry Ward Beeches guilty of adultery and perjury by evidence both oral and documentary, and that, if allowed the opportunity of prolucing such proof before the Council fail to sustain this assurance, then I an willing to be denounced by mankind as a wretch devoid of truth and honor and unworthy of human association."

RETURN OF REASON.

We are glad to note a return of reason and brotherly kindness and charity among a class of democrats in Centra county, whose democracy was of that strait and strict quality, that they would refuse to support a candidate for office if he at any time, however remote, belonged to the opposition party. The this political fastidiousness is wearing of we are pleased to note from the doing of the democratic county convention which re-assembled on Tuesday of las week and where Andrew G. Curtin wa warmly recommended as the democratic nominee for the vice presidency. Mr Curtin was long the head of the republican party in this state, and for the las four years has acted with the democratiparty-an acquisition to our ranks of which we are proud, and the democracy need not feel ashamed of him-he is sore loss to the republicans and a great democratic gain. It is not too late to d good and throw off squeamish notion and we trust that this will be the end calling gentlemen like Adam Hoy "baby democrats," although he hails from th oldest and best democratic families i Centre county, and has acted with th democratic party four years to Gov Curtin's one. This same uncharitable feeling was shown towards our excellent member of congress, Col. Mackey, because he at one time was a whig and ye after having acted for a dozen of year with the democratic party, some were so fine in their political tastes that they joined in with an independent move ment to defeat him because he man years ago belonged to the opposition party. We are pleased to think that this foolish proscriptive feeling has been thrown aside by the stand some of these gentlemen have taken in favor of Curtin, and that they will live up to it with consistency and extend a welcome han to all decent republicans who may wish

to join the democratic ranks. BRISTOW STOCK WANING.

Bristow is Grant's cabinet officer who did his duty in bringing the crooked whiskey ring to justice. When the Secretary started out against these robbers and before lighting struck so close on to the heels of the president himself, and knocked private secretary Babcock into a swoon, we say before this bolt descend ed, many radical organs all over the country were loud in praise of Bristow and brought him forward for the presi dency. But as soon as in the discharge of his sworn duty his hand fell upon Babcock, so soon Bristow's radical admirers commenced to cool down, and not one is left to say, "Bristow for president." This is proof that the republican party managers do not look with approval upon the efforts made by Secreas his private secretary.

There is great rejoicing in admini ation circles that "one guilty man ha caped," even Grant is glad, althoub forgot what the explanation of thos legrams was.
