der it for a Month

we strolled down the terrace that over-looks the old city, gray with age and teeming with historic reminiscences. The Neckar flowing down between the Konigsthal and the Heiligenberg, the hills covered with vineyards, the curri-ous old bridge, the red-tiled roofs, and in the rays of the sun. As the god of day gradually sank below the horizon there came a soft atmospheric baze, over the scene that would have delighthe church spires were all glistening in the rays of the sun. As the god of day gradually sank below the horizon there came a soft atmospheric haze over the scene that would have deligh-ted the heart of Claude Lorraine, and which is often found in the light and day gradually sank below the horizon there came a soft atmospheric haze over the scene that would have deligh-the dest of Claude Lorraine, and which is often found in the lights and shadows of his landscapes. The sky changed from a golden yellow to so prilliant a crimson that no preparation of cinnabar could have reproduced it.

**anadows of this indicatives.** The sky is the state of peace, cheered by mutual good offices. The possession of this quality is the especial characteristic, and its exercise of womanhood. We may be willing to lose all, to die, if need be, for those we love, but if we do not, from day to day, abstain from the little unkind or thoughtless acts which interfere with their comfort, we shall utterly fail to are the manner in which they are used a tolerably a child of ten, who might not be able to the gather from that conversation by his elders in the social circle, would make them happy, and their hearts will their comfort, we shall utterly fall to make them happy, and their hearts will inevitably escape us. The heroic and but ever growing clearer and more de-

sriter in the Cincinnati Gazette, we of slow pleasing are must he pass, and salked one evening up to the imposing uins of the old castle, and during the how many books must he read, before the words to which he has been thus introduced will have lively and ready we have been the playing cards, too." ted by the music in the concert grouds, we strolled down the terrace that over-meaning for him, and before he will at-"No, sir, it's not s

Among the many processes proposed for the preserving of meat, is that which requires that it be placed in an atmosphere of compressed air. The results obtained by this process seem to fully justify the claims of M. Alfon-so Reyhoso, the patentee. As illustra-ting the general method pursued by the inventor and the character of the

SURE CURE FOR GAPES.—A well known chicken raiser says as soon as a mani-festation of gapes in his fowls appears, he confines his chickens in a box, one at a time, sufficiently large to contain the bird, and chickens in a box, one

then pinch him well; then give him o one for his nob, and let the one be a good one; then knock him down; then h kick him from the rear; then make faces at him; then pull his nose; then sit on his head: then ask him if he's had enough now, or will wait till he gets if 1 fh e don't answer you may safely conclude that you have killed him.

screw projecting from its base, this weight being suspended by a chain

in butter of a light brown; then add the meat, and fry all together till it be-gins to brown. Put all into a stew-pan, from an overhanging arm, movable up and down on a support at the side. Thus, the least shock will cause the and pour boiling water enough just to cover it. Simmer very gently. ball to topple over, and, on doing so, it will ran down one of the grooves of the cap to the inclined plane, at the bottom part of which it finds a hole, bottom part of which it must a noie, and passing into it, causes the dis-charge of a pistol. But this is not all. Whenever the ball has left its position on the cap, a spring needle, longer than the diameter of the ball, shoots out from the little screw knob that res-ted on the ball and catches in that groove of the cap down which the ball ran the direction of the shock is on

cover it. Simmer very gently. TATIOCA PUDDING WITHOUT MILK OR EGGS.—Soak a teacup of tapioca in one and one-half pints of water over night. Pare and punch the cores from six apples. fill the holes with sugar, flavor with a lemon or nutmeg, and pour in one teacup of water. When baked soft, pour over the tapioca, and bake all one hour. Eat with sauce made of butter and sugar stirred to a cream. The standard remedies for all diseases that all the rum had been obsorbed. Affectionately seizing the sailor's hand, he naively gave thanks, asking: "Can Lever forget your goodness in bringing back my cask? Never, never!" WHILE Mrs. Butler was playing Juliet at Philadelphia, and just when she had calaimed, "Oh, cruel poison!" a tall, he in the stage box deeply absorbed is the come, thrust down his hat on his dent in the stage box deeply absorbed in the scene, thrust down his hat on his head with a convulsive effort, crying The Pulmonic Sy "APPLE JACK."-Pare, quarter and

"APPLE JACK. — Fare, quarter and core, enough apples to fill a three or a four quart crock. Make a batter a little thicker than for pancakes; put a layer thicker than for pancakes; put a layer of apples on the bottom of the crock, then pour over some of the batter; then "CLASS in the middle of geography,

which requires that it be placed in an atmosphere of compressed air. The results obtained by this process see the states to fully justify the claims of M. Alfon-so Reyhoso, the patentee. As flustra-ting the general method pursued by the inventor and the character of the results obtained, the following instance is given : A half carcass of lamb was phere of compressed air, and then ta-ken out and cut in quarters. One quar-ter was submitted to connoisscurs, who

ter was submitted to connoisseurs, who pronounced it excellent; the other was exposed in a room merely protected from flies by a light muslin wrapper. It dried up, but retained its natural co-lor; and, when subsequently cooked, was found to be as sweet and agreeable to the taste as the other up the which taste is the and the subsequently cooked. To ARRANGE A CHEAT AND GOOD TO ARRANGE & CHEAF AND GOOD asked: "Say, mamma, do we get out at the next holler?"

to the taste as the other portion which MOUSE TRAP.- Take the bowl of a clean

"Is THAT a friend of "ours?" asked a clay pipe and fill it with cheese; put it under the edge of a glass tumbler in clay pipe and fill it with cheese; put it under the edge of a glass tumbler in such a manner that a slight touch will cause the tumbler to slip off—the bait and mouse, of course, underneath. This arrangement will eatch more mice than "I've just loaned him \$5."—Brooklyn any expensive traps. Argus.

SPILKINS says that all the perils and TO CLEAN BUCKSKIN GLOVES .--- Wash To CLEAN BUCKSKIN GLOVES.—Wash them in lukewarm soft water, with a little castile soap, ox-gall, or bran tea, then stretch them on wooden hands, rub them with pipe clay moistened with beer; let them dry gradually, rubbing them from time to time so that they do not lose their share in drying. The symptoms of first love are too di-

not lose their shape in drying. HAM OR TONGUE TOAST .- Toast a few lices of bread and butter on both sides,

cold meat, and put this a set whan with two hard boiled eggs chopped fine; mix with a little water, butter, salt, and pepper. When hot spread on the toast and serve in a covered dish. A JAIL is generally such a dirty place that no gentleman can be expected to you find that sort of a person there. do you know that a cold is one of the most dangerous of maladies! A cold not only clogs up the pores of the entire system, and retards circulation, but it is productive of Catarrh, which is quite

sons contined to their beds, take the white of an egg, beat it to a strong froth, and drop in gradually, while beating, two teaspoonfuls of spirits of wine; and apply occasionally with a feather.
