

The Centre Reporter.

ED. KURTZ, EDITOR.

CENTRE HALL, Pa., June 21, 1877.

Just now the prospects for Tuesday's early release are not very bright. He may still be found a border in the Ludlow street institution, by the time permissiveness ripen. And "what are you going to do about it?"

On last Saturday the roads of Union county voted "for" or "against" the Crawford county system of making nominations. They were working under that system heretofore, and there was some queer primary voting, hence some are for abolishing it.

We see no hope for a revival of business in the near future. We rather fear a fearful crash is getting for the country. Labor is not getting plentiful, and the cry of destitution is not stopped. Mills and factories are on a standstill. Short all interests are suffering. What is the government doing? The latter experience of the past should have made our Washington statesmen wiser. The following failures in New York, last week, may only be the forerunners of others:

The failure of J. M. Sternberg & Son, 30 Broadway, one of the oldest and largest oldest houses in the millinery goods trade, is announced. The liabilities are about \$150,000; nominal assets as large.

Bamberg, Hill & Co., importers and jobbers in millinery goods have suspended, with liabilities of \$100,000 to one hundred thousand dollars.

Brigham Young it seems, has a disposition to defy the government. The Virginia City Chronicle publishes an interview on the Mormon question with W. W. Bishop, who defended John D. Lee. Mr. Bishop says that from intimate personal knowledge of Mormon affairs, Brigham Young thinks he can stand a trial and get clear there will be no resistance. But the apprehensions of his followers will stand by him to the last man. Higbee, Haight, and Stewart can only be taken by the superior force of the United States troops. Under the present jury system it is simply impossible to convict in Utah any of the other associates. Lee was convicted only because District Attorney Howard succeeded in making Young believe that if Lee was convicted Utah would be admitted into the Union as a State. Young accordingly ordered his conviction for the good of the Church.

Hayes' Secretary of the Treasury, Mr. Sherman recently ordered that relatives in his department must be thinned out. This is getting the Secretary in a sweat, or rather the attempt to enforce the restriction has put in practical operation by the discharge of a number of clerks thus enumerated. In one instance, a sister was dropped who had been drawing a salary of \$1,400 to let the brother remain at \$2,400 a year. It is further reported from Washington that it will be found difficult to make a clean sweep of the relatives, especially in some cases of "man and wife. Clerks have married clerks but the name of the lady has not been changed in the rolls. In fact the marriages have been kept secret for the sole purpose of keeping both the man and wife in employment. The denunciation of Sherman because of his own liability to the charge of nepotism, and the stigma more severe with the removals now being made. It seems that it was not the Secretary who denied the relationship with the collector at Des Moines, but an assistant secretary did it for him, and hence got the Secretary into hot water. It is now said that in addition to the relatives of the Secretary in office who have been mentioned is a niece in the Interior Department.

Mr. Tilden, to-day, is more highly honored and respected by the American people than Hayes. They greet him wherever he appears, as the elected President the choice of the people, while Hayes is allowed to pass almost unnoticed except by a few post-masters and custom house officials. This is the 877 President experienced in his visits to Philadelphia and New York, recently. Wherever Tilden appears, the people of all parties turn out, anxious to do him honor. At the departure of Mr. Hendricks for Europe last week, a great ovation was given him, and Mr. Tilden was there and made a speech, which will be found in another column. They are the words of a true American patriot, and will burn like a pan of hot coals upon the head of Hayes. The Globe has published the special reports of the "Insurrection" of the friends of the electoral franchise, it is as great a wrong as it is to me, and no less to every man of the minority will the ultimate consequences extend.

After this sentence was greeted with cheers, which grew more and more in intensity as the speaker proceeded. He spoke with great earnestness and with marked emphasis, and was listened to with breathless attention.

Not less hearty was the reception accorded Governor Hendricks, who was next introduced. After the meeting in the parlors had ended, and while the guests were partaking of a collation, a serenade was rendered the guests. When the band had finished playing, there were loud calls from the crowd on Fifth avenue for Tilden and Hendricks.

Mr. Tilden appeared on the steps of the Club house, followed by Mr. Hendricks, and the cheering was so long and loud that the gentlemen were kept in waiting many minutes. Both Mr. Tilden and Mr. Hendricks said a few words to the throng, and were frequently interrupted by cheers.

The enthusiasm reached its climax when a gentleman jumped upon the railing in front of Governor Hendricks, and that gentleman made the following remarks, and called for three old-time cheers for Tilden and Hendricks. These were given with a will, and after a speech from Lieutenant Governor Desha, the crowd slowly dispersed.

If Hayes succeeds in renouncing the old Whig party he might next try his skill on the Cardiff Giant.

THE PEOPLES' PRESIDENT. SPEECH BY SAMUEL L. TILDEN AT THE HEADQUARTERS OF THE REVOLUTIONARY PARTY. WHAT HE THINKS OF THE TRADITION OF THE REVOLUTIONARY PARTY. RINGING REMARKS BY THE REAL VICE PRESIDENT.

New York, June 12.—Governor Tilden made a brief speech at the reception of the Manhattan club to-night. Alluding to the departure of Governor Hendricks to-morrow and wishing him a good voyage he asserted that the men elected by the people in the late presidential contest were counted out. He said that the greatest wrong that had stained our national annals into a personal grievance was the late contest, except by external forces. If the men in possession of the government can in any instance maintain themselves in office, the people will have to be satisfied with a government that is not theirs. He said that the people will have to be satisfied with a government that is not theirs. He said that the people will have to be satisfied with a government that is not theirs.

THE DEATH OF THE LARGEST WOMAN IN THE WORLD. (Minnneapolis, Minn., Courier.) Our Ironville correspondent sends us an important item in the death of a woman, the celebrated Mrs. Ann, who was the largest woman in the world. Mrs. Ann, who was the largest woman in the world, was a native of Vermont, and was born in 1782. She was a native of Vermont, and was born in 1782. She was a native of Vermont, and was born in 1782.

DEFEAT OF THE TURKS. TWO THOUSAND DEAD ON THE FIELD. THE RUSSIAN CONCENTRATING THEIR TROOPS—Important Movements. London, June 16.—Late dispatches from the Russian headquarters report that heavy fighting took place on Monday at Terek, but the result even the most sanguine could not have foreseen. The Russian troops, concentrating their forces, were victorious. The Russian troops, concentrating their forces, were victorious.

THE WAR IN ASIA. Desperate Fight of the Garrison of Kars. London, June 18.—The Herald correspondent at St. Petersburg telegraphs that the garrison of Kars has made another desperate sortie. The Russian troops, concentrating their forces, were victorious. The Russian troops, concentrating their forces, were victorious.

THE REVEREND WIFE POISONER. Great Excitement at the Trial of Elder McGhee—Verdict of Guilty. Dixon, Ill., June 13.—The trial of the Rev. S. O. McGhee, for the murder of his wife, is over. McGhee poisoned his wife with strychnine, in order, it is alleged, that he might marry Loretta Padlock, the pretty daughter of a rich farmer. While in jail he induced his daughter Jennie to sign a confession to the effect that she was guilty of the crime. Jennie afterwards repudiated the confession. The successful prosecution. He was followed on Monday by the counsel for the defense. The speaking operation for the second three past days the excitement has been intense. People poured in from every direction with horses and wagons, and the streets and sidewalks were thronged, and hundreds camped out.

Two Tramps killed in York County, is the heading of a tragedy reported by telegraph, a few days ago. It tramps will take to booting each other, they will find plenty employment, and business brisk. The fellows in York county did up the work of making cold meat of each other effectually. The despatch, dated Fairview, June 13, says: A terrible tragedy was enacted in the mountains near here last night. For a long time the signs of tramps who travel through this region have made

was being made upon the "ranked out." This will probably be stopped and the demand for the pipe line. The company has transported 50,000 barrels, while stock on hand is 40,000 barrels. The condition of the other companies is equally good, with excellent promises for the future.

LEARNED BLACKSMITHS. E. H. Burt. For well nigh a quarter of a century, the country and Europe as the "learned blacksmith." He was, indeed, editing, and composing, a weekly journal, "League of Universal Brotherhood." He wrote much, and in his prime was a leading linguist. He spoke fluently, principally to his wonderful aptitude for acquiring languages. He was working a blacksmith, he learned Latin and Greek, French, German, Spanish and Italian. Since then he has learned a number of other languages, and has just finished a Sanskrit grammar and nearly completed grammars of the Hindoo and Turkish. That is enough to satisfy any reasonable doubter as to his linguistic powers. He has been taking up the Arabic, Hebrew, Syriac and the Sanskrit. He is a man who today, if he lives before it.

RECORD OF DEEDS. The attention of persons holding unrecorded deeds is directed to the provisions of the Act of Assembly, which requires that— "All deeds and conveyances for real estate in this Commonwealth, shall be recorded in the office of Recording Deeds in the county where the lands lie, within six months after the execution of such deeds and conveyances; and every such deed and conveyance not so recorded, shall be void and of no effect, unless the same be recorded before the recording of the deed or conveyance under which such subsequent purchaser or mortgagee shall claim."

AN EXTRAORDINARY SUICIDE. Robert Richer, aged 40, for a long time clerk in the Quartermaster General's office, quarrelled with his wife about her earnings, and killing her. He then took to the water, and was found dead in the river. He was found with a bullet wound in his chest, and a pistol in his hand. The police are investigating the case.

THE PETROLEUM INTEREST—THE PRODUCTION REGION—MR. PRENTISS' FAILURE. Pittsburgh, June 14.—The intelligence of numerous great "strikes" in the new petroleum region, and the announcement of the eminent—if not actual failure—of Frederick Prentiss, president of the Petroleum Company, are creating an excitement in the oil trade greater than it has experienced for a long time. The leading operators have regarded with considerable anxiety the continued heavy depletion of the petroleum production in the Pennsylvania oil districts, and have awaited with great interest the developments at Bullion and Summit. The successful result of the operations at these places has restored the confidence of the oil men, who now generally agree that Pennsylvania important and valuable petroleum interest exhibits no sign of flagging, and there was an indication at one time would be the case in the people.

THE PETROLEUM INTEREST—THE PRODUCTION REGION—MR. PRENTISS' FAILURE. Several wells in the newly discovered districts are spurting forth the oleaginous compound in such abundance that hundreds of barrels are being produced daily. The production is estimated at 20,000 barrels daily, and this will now allow a good prospect for the future.

THE PETROLEUM INTEREST—THE PRODUCTION REGION—MR. PRENTISS' FAILURE. The production of petroleum in the Pennsylvania oil districts is increasing rapidly. The production is estimated at 20,000 barrels daily, and this will now allow a good prospect for the future.
