THE SUN continues to be the strenuous advocate of reform and retrenchment, and of the substitution of statesmanship, wisdom, and integrity for hollow pretence, imbeculity, and fraud in the administration of public affairs. It contends for the government of the people as opposed to government by frauds in the ballot-bux and in the counting of votes, enforced by military violence. It endeavors of scula—with the mest careful, complete, and trust-worthy accounts of current events, and employs for this purpose a numerous and carefully selected staff of reporters and correspondents. Its reports from Washington, especially, are full, accurate, and fearless; and it doubtless continues to deserve and enjoy the hat-ed of those who thrive by plundering the Treasury or by usurying what the law does not give them, while it endeavors to merit the confidence of the public by defendance of unjustified power.

The price of the Datuy Sun is 55 cents a month, or \$6.50 a year, post-paid; or, with the Sunday edition \$7.70 a year.
