Resolved, That we regard the failure of the compilers of the recent history of the Industries and Institutions of Centre county, to present to their readers any account of the organization of the order of Patrons of Husbandry, as either an inexcusable blunder, or evidence of a prejudice which shows their unfluess as historians. In either case we feel that their act of omission calls upon us to prove our existence by the steadfast maintenance of the principles of our beloved order and their exemplification in the presence of the people.
