Times of that city. One object of the experiments, as stated by the Times, was to note the effects of the poison with reference to its use as a remedial agent in certain cases of disease. The chief factor in the experiments was a fine rattlesnake about eleven years old and three and a half or four feet long, which Dr. Haynes has confined in a wire cage.

Some thirty animals were used in the experiments, such as rats, hens, pigeons and rabbits. They lived varying periods of the latest noveity in veils is black dotted, net lined, with white illusion.

All the cases I saw then, upward of a hundred—and there were some very desperate ones—are doing well, with two exceptions. The cases under the care of Dr. M. F. Grosart are been going incessantly day and night, has at-tended 275 cases and has lost only twelve. This good Asmaritan, I am informed, has not only attended the sick free, but, in some ices, has also buried the dead at his own

The Dutch have still got that war on their hands in Atcheen. The contest has now been waging for about eight years, and has cost the Hollanders a pretty penny. A correspondent lately writing from Amsterdam says, "The Atcheen war is likely to ruin our flnances. Scarcely has the chamber acwar than the government finds itself under the necessity of asking for new subsidies. This time it asks for eight millions. In order to cover the deficit entailed by the war, which has already involved a loan of forty-three millions of florins-the government has had to persuade the chamber to consent to a . tax which has stirred up lively discon-tent among all classes." Atcheen is the northwest portion of the great isle of Sumatra, which at the nearest point is distant only thirty-five miles from Java; out Sumatra is 900 miles long, and Atcheen the portion most remote from Atcheen with great jealousy and dislike, inasmuch as they regard the vicinity of a free and independent state as setting a bad example to their Malay population, which is in a state of certage little removed from slavery. The Atcheenese are the most advanced of the native races of Sumatra, and are evidently very formidable foe, with a great deal o

are intended to take the place of coin certifi-cates, which, it is expected, the notes of the larger denomination will in a great measure, if not entirally, supersede.

Is generated by the action of the sun's rays upon damp, decaying vegetation, stagmant pools and marshy, low-lying tracts. The true nature of this missma is by no means clearly understood, but there are two facts in relation to it that are. The first is, that the periodical fovers which it breeds are of the most virulent type; the second is, that these maladies are rarely cured, although they may be ameliorated, by the ordinary remedies employed to overcome them. The true antidote to the effects of miasma is Hostetter's Stomach Bitters. This medicine is one of the most popular remedies of an age of successful proprietary specifice, and is in immense demand wherever on this continent fever and ague exists. A wineglassful three times a day is the best possible preparative for encountering a maiarious The story is revived that many colored citizens of the United States are held in bondage on the island of Cuba, having been kidnapped from the States of Florida and Louisiana and sold into slavery. During the progress of the insurrection on the island of Cuba, investigation was obstructed, but as difficulties are now removed by the restoration of peace, our government will promptly act on all representations from responsible sources charging the sible preparative for encountering a malaric atmosphere, regulating the liver, and invig-ating the stomach.

Austobe the pashs that the suitan of Turkev had sen him to arrange for the transfer of Podgoritz to Montenegro.

An insurrection among the colored population of Santa Cruz, an island in the West lines, is reported. The insurgents burned one town, destroyed sugar estates and murdered several leading planters. In one engagement the insurrectionists were routed and 200 of them killed.

The Pacific mail steamship Georgia ran over some concealed rocks on a sandy point 256 miles northwest of Panama, and became a total wreck. The passengers and crew were saved, and it was thought most of the cargo could be recovered. The vessel was valued at \$150,000.

The Canadian government has reisgned and sir John A. McDonald has been intrested with the formation of a cabinet.
