CENTRE HALL, PA., APR. 17, 1879.

A special despatch from San Antonio says Tom Lemon, a notorious horse thief, was shot dead while resisting arrest. Lemon fired first but missed the officer, who then shot Lemon through the heart with a rifle.

Paint which is put on in the Fall will last nearly or quite as long again as the same grade which is applied in the Spring or Summer. The extreme hot weather of Summer months is not favorable either for the preservation or the fine appearance of paint.

A MISSING MAN'S SKELETON FOUND.

Halifax, March 31.—Dr. MacDonald mysteriously disappeared from Dartmouth on the east side of Halifax harbor about 30 years ago, and it was supposed at the time that he had been murdered for his money. Yesterday his skeleton was found under the flooring of the house where he had boarded with a man named Thorpe, who was arrested on suspicion at the time of Dr. MacDonald's disappearance, but as no evidence was procurable he was discharged. Thorpe is still alive in Pictou county, and will be rearrested.

THE WATER TORTURE IN JAPAN.

The originators of this cruel device relied upon the torments of thirst as more powerful than mere corporeal suffering. The prisoner is confined for several days to an extremely salt diet, without rice or water. When two or three days have passed, the craving for water becomes incessant, and the sufferings of the tortured man approach the bounds of insanity. Efforts are then made to obtain confession by subjecting the sufferer to the agony endured by Tautains when in the infernal lake, whose water he could not touch. On all sides the thirsty-distracted prisoner beholds water—water for which he would sacrifice everything—but which he cannot touch except upon the conditions of a confession.
