

THE CENTRE REPORTER.

Centre Hall, Pa., Wed. Apr. 24, '79.

Small articles may easily be coated with silver by dipping them first into a solution of common salt, and rubbing with a mixture of one part precipitated chloride of silver, two parts of potassa alum, eight parts of common salt, and the same quantity of cream of tartar. The article is then washed and dried with a soft rag.

Be Thorough—If you want to succeed in life, be thorough in your work whatever it is. It is some times convenient to be a Jack-of-all trades, but it is always profitable to be master of one. A workman who thoroughly understands his business is seldom in danger of coming to want. While the mass of the inefficient suffer, the few who do the best work, whether men or women, are always sought for.

— You can find a first class grocery at Dinges', Centre Hall.

Croup can be cured in one minute, and the remedy is simply alum and sugar. The way to accomplish the deed is to take a knife or grate and shave off in small particles about a teaspoonful of alum; then mix it with twice its quantity of sugar, to make it palatable, and administer it as quick as possible. Almost instantaneous relief will follow.
