The Zulus are badly whipped but that is not of much importance as it is to know that in the war, for cheap clothing Newman is victorious over all others, and is King Clothier so firmly established that all opposition combined can not drive him from his high seat. Dr. Valentine, President of Penn's College, honored the Reporter office with a visit last Thursday. The Doctor accepted an invitation from Rev. E. J. Wolf, D. D., to accompany him on a visit to his brother Wm. Wolf, of our town.

The Dr. is pleased with what he saw of our beautiful valley; the romantic ride over the mountains, the cave and grand view from Nitro, the mountain above the tree Hall, were a treat to him. He is a gentleman of fine qualities, sociable, and a together fitted for the high position he fills as the head of one of the leading colleges in America. Penn's College is in a flourishing condition under the management of Dr. Valentine and his able corps of Professors.

MILLHEIM ITEMS.—The borough is moving on and ordinances as to sidewalks, cattle, &c., are being enacted and enforced. Chief burglar Kerby serves with dexterity. A daughter of Eliza Muster, at the toll-gate, tramped upon a raw, seedy prong going nearly dead to the root, causing a painful wound. The best the new pipe company could do would be to build a horse car track over their road. This would surely pay.

Potter's Mills must have some strong horses, just from the horses pulling that load of the mill. Mrs. Moses Clark last week, with two small bullocks pulled 650 bushels from the Centre Hall brick yard for Thompson's new store at Potter's, a distance of 5 miles—road hilly and none too smooth. The weight of the brick is given us as 450 lbs. That is a pretty good pull and would do credit to a pair of large horses.

Rev. E. J. Wolf, D. D., one of the faculty of Penn's College, is on a visit to his brother Wm. Wolf, of our town. The Doctor, last summer was given leave of absence, having been advised to make a trip to Europe for the benefit of his health. His travels there covered some three months, and had a beneficial effect. His shattered constitution has been somewhat restored and he has been able to attend to his duties.

For dried and canned fruits, dried green beans, coffee, tea, syrup, sugar, candies, stoneware, and hundreds of other things, the best in market, go to Sechler's, in the Bush house block.

—Here is a little item that may be of interest to some of the lady readers of the Reporter, who may wish to know the latest mode of raising flowers—how to get "slips." Two women were caught in men's clothes stealing rare plants from a conservatory at Pittsfield, Mass., and a visit by officers to their home, a few miles from the town, revealed the fact that it was filled with stolen flowers. Unable to honestly gratify their love of the beautiful, they had put on trousers and become thieves to do so.

—Go to your stores or druggist and get a bottle of Frank P. Green's compound salve, liniment and bloodroot, the best remedy out for a cough, cold, eruptive, or early stage of consumption.

DRESSMAKING.—Mrs. SMITH, dress maker, Centre Hall, desires to call attention to her samples of trappings of all kinds; also, samples of new and old garments. The Union Home is a party from Swiegel went out berrying, one day last week, when the captain commanding, Ed. Yarger, had a narrow escape from the fangs of a rattlesnake. It seems the captain was taking a "snore," and on waking up he found a snake of this character within a few feet of his weary body.
