

The Centre Reporter.

PAUL KURTZ, EDITOR.
CENTRE HALL, Pa., Jan. 22, 1880.

Post Master General Key will next issue an order forbidding by postal cards to send money or jewelry by postal cards. Great Key this.

The Ohio republicans have elected James A. Garfield to the senate in place of Thurman, democrat.

The Lewisburg Journal says that a number of merchants of that place propose removing to other points to do business, and that the town is overrun with terrible forebodings of collapse. Lewisburg is a beautiful town on a river bank but it is a place which entersprising people, it is a place where wealthy citizens who could give the place a fine start, if the mighty men of the town only had the right kind of enterprise. Lewisburg is a dull beauty.

From England comes news of fresh strikes of cotton operatives, also great fears of an outbreak in Ireland. Poor John Bull has his little troubles too, well as the rest of us. His boy, Ireland, has always been inclined to unruliness and never liked the old man. Patrick Kelly and John and the landholders are a set of terrible skinners, and he is always ready to go for them.

Colonel Charles Kleckner, an ex-member of the legislature, was arrested on Saturday for posting the mails. At the hearing recently he was held under \$8,000 bail for his appearance at the U. S. district court.

Col. Kleckner was a New Berlin man, but was arrested at Centre Hall. He was a member of the legislature, and afterwards ran a circus, which exhibited at Centre Hall on its tour.

Four English, now, once it was poor Charlotte who was bereft of her reason by her husband Maximilian being shot in Mexico. Now Eugene is in double mourning—for her husband the Emperor and recently for her son killed in Africa by the Zulus, where she is now on her way to see the scenes of his death.

The ex-Empress Eugenie, according to a London paper inherited \$150,000 a year from her mother. She will sail from England next month in the steamer Danube for the purpose of visiting Zululand and placing wreaths, &c., on the spot where the Prince Imperial was killed. The Prince Imperial was the son of the Emperor, together with his original fittings. The horses and carriage used by the Prince will also be placed at his service. Her Majesty will visit the place where the Prince resided in Natal and subsequently with her suite travel by the route taken by the Prince, in a wagon specially fitted for her accommodation. The Empress will go direct to Natal, where she will be privately received.

The Bellefonte Centennial Club is said, says the Watchman. It died for lack of interest, and only about a dozen members remained who had not violated their pledges. The furniture and other traps were divided among the surviving heirs.

If you desire a good weekly outside of your own town, get the Harrisburg Patriot, a large sheet, filled with the news of the day, markets, and an able advocate of democratic principles. The Daily Patriot, gives all late telegraphic news, and reaches our section same day it is published. See advertisement in this issue.

We see an article in a number of our exchanges that Gov. Seymour has avowed himself a candidate for the Presidency. We are not so certain that he is, in the face of the strong refusal heretofore to become a candidate for any office. We, however, never believed that Mr. Seymour, if called by the democracy to again become their standard bearer, would be too patriotic to obey the call. He is too patriotic for that, and loves the party and the good of his country too well to refuse to lead his party to the front.

The Supreme court of the United States on Monday laid down the law as to the responsibility of employers for the lives and limbs of their workmen. They must not expose them to peril which can be guarded against, and if the work reports defective or unsafe machinery, the master becomes responsible if the repair or restoration is not promptly made. The doctrine, familiar to English courts but never hitherto adopted here, that the acts of a superior officer or workman under a corporate name are those of the employer, and the latter is responsible for negligence involving disastrous results, was affirmed. The case was that of a railroad engineer who lost his life while saving his passengers from an accident, the result of a defect in his engine, to which he had called the attention of the master mechanic. The widow sued the railroad, the Texas Pacific, for \$50,000, but was ruled out of court in Texas. The lady will probably be more successful on the retrial which has been ordered.

An attempt is being made in some quarters to have the governor call an extra session of the legislature. That body met one session and a half, and did nothing, and would do nothing if re-called; besides there is nothing to do that requires an extra session. It would be a great thing for members and others that see money in an extra session.

The recent decision of the supreme court of Maine would place Tilden in the Presidency.

From Chicago comes intelligence that a railroad war of some proportion is brewing among Western roads over the appointment of Colorado business.

The Northwestern road has set up a claim for a partnership in the pool which carries Colorado freight to points on the Missouri River, and that request having been refused, it inaugurated a large cut in rates. The Chicago and Rock Island has retaliated by declaring its line open and the Milwaukee and St. Paul has also joined in the fight against the Northwestern, and it is intended to force the issue and settle immediately. Pending the settlement a general Western railroad war is probable.

CONGRESS—A NEW ELECTION.

The congressional committee on elections in the Curtin-Yocum contest have reported that Mr. Yocum is not entitled to the seat. In this the committee are largely sustained by evidence taken on Yocum's side, saying nothing of the illegality and irregularity proven by Gov. Curtin's attorneys. Hence the committee report in favor of remanding the question back to the voters of this district, for a new election to be held on the 3 Tuesday of February, and to hold which our spring elections are held. This will consequently be attended with some additional expense, and the people will have an opportunity to decide the matter in a manner that will leave no doubt as to their real choice for congress. Yocum's own evidence made it plain to his own constituents that a seat which he was not entitled to, the testimony on Curtin's side was strongly in the same direction—thus doubling the testimony against Mr. Yocum.

Gov. Curtin having had a majority of the legal votes cast at the last election, it is due him that the democracy of the district again support him, and give him such a vote as will put his election far beyond the reach of treachery and fraud. We know this is the temper of our party in the last year, and his personal popularity will be an asset to the district and the state. His eloquent voice will be heard there; his knowledge of public affairs will be of great service to the country, and his influence among the men of the nation, all will tend to give such a representative in congress of whom every citizen of the republic can feel proud.

We have no doubt that one third the republicans of this district prefer Gov. Curtin to Mr. Yocum, who has been playing hot and cold with both parties for their favor.

MAINE.

The republican legislature of Maine has chosen D. L. Davis, for governor, and Gen. Chamberlain has recognized him. The fusion legislature elected Mr. Smith as governor. The republican legislature of Maine should be happy now—her motto has given her two governors. The fusionists first elected Smith, greenbacker, governor. A few days after the republicans gathered up a legislature and elected Davis governor.

Smith was a man of high standing in Maine and he has done well for himself. What a relief it is that this mudslide did not take place in a southern state.

REPUBLICAN RECORD.

The Pennsylvania Republicans in State Convention, in 1875 declared that they were a firm and unqualified adherence to the unwritten law of the Republic which wisely and under the sanction of the most venerable of examples limits the Presidential service to any citizen to two terms, and we, the Republicans of Pennsylvania, in recognition of this law, are unalterably opposed to the election to the Presidency of any person for a third term.

In the Convention of 1875, this resolution was adopted. Besides these four pieces I found other less noticeable and important but equally significant ones.

The observation of Washington's example in retiring at the close of a second Presidential term will be in the future, as it has been in the past, regarded as a fundamental law in the unwritten law of the Republic.

The New York Republicans made the following declaration: Recognizing as conclusive the President's public declaration that he is not a candidate for a third term, and with the sincerest gratitude for his patriotic services, we declare our unalterable opposition to the election of any President for a third term.

Finally, on the fifth of December, 1875 a resolution in the House of Representatives "That in the opinion of this House the precedent established by the President in his second term, in resigning from the Presidency after his second term has become a universal custom of government, and that any departure from this time honored custom would be unwarranted and patriotic and in violation of our free institutions," was adopted by an almost unanimous vote, only eighteen members voting against it.

At the last meeting of the Liverpool Engineering Society a paper was read touching the probable exhaustion of coal, in which the author advocated the substitution of the tides as a producer of motion which would outrival all other sources of mechanical power. A correspondent of the Builder, too, is of the same opinion. A compressed air chamber, with a piston, and a valve, which would be operated by an almost automatic power, only eighteen members voting against it.

A republican member of the New York legislature has already introduced a bill to take away the right of the people of that state to vote for republican candidates in the election of the President. The Times, a leading republican organ, however, disapproves of the new game. It says: Whatever may be said in support of the election of congressional districts, which is one that has its merits and its demerits, it is not a very desirable one. It is not a very desirable one. It is not a very desirable one.

Readers of standard books will be pleased to notice the great progress of "The Library of American Book Exchange, New York. Among their books just published are: "The History of the United States," by James M. Smith, 10 vols., \$1.00; "The History of the United States," by James M. Smith, 10 vols., \$1.00; "The History of the United States," by James M. Smith, 10 vols., \$1.00.

From Chicago comes intelligence that a railroad war of some proportion is brewing among Western roads over the appointment of Colorado business.

The Northwestern road has set up a claim for a partnership in the pool which carries Colorado freight to points on the Missouri River, and that request having been refused, it inaugurated a large cut in rates. The Chicago and Rock Island has retaliated by declaring its line open and the Milwaukee and St. Paul has also joined in the fight against the Northwestern, and it is intended to force the issue and settle immediately. Pending the settlement a general Western railroad war is probable.

ENORMOUS PROFITS OF SHERMAN'S PET BANK.

John Sherman has an interest in the National Bank of New York, and to learn how these pet institutions make money of the people, the following will show: The First National of New York, is in a fair way to be investigated again. Senator Beck's attention has been attracted by the report of the remarkable financial success of that institution during the past year, and he has determined to find out, if he can, something of the bank which exists between that bank and the Treasury Department. The report of the bank on its condition for the year 1879 shows that during that time it had paid 120 per cent. of dividends, and had earned a surplus of \$1,000,000, and in addition, it has on hand an undivided surplus of \$207,700. The capital stock of the bank is \$500,000. It profited during the past year has been over 250 per cent. Senator Beck, in commenting on the report, said, "It is my judgment it is impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000. Its capital is only \$500,000, and it is in my judgment impossible that any bank or banking institution can have made such a vast amount of money on such a capital. The report shows that the bank has made an actual profit during the year of \$1,300,000.
