----The iron trade has taken a tumble from the lofty height it had so suddenly taken. The Western iron associati held a meeting at Pittsburg, on 8, which was largely attended. After fully discussing the situation a resolution was unanimously adopted that the card rate should be reduced from \$4 to \$3.20, to take effect on Monday, the 12th inst.

The Albany Argus says the fact that Grant was surrounded by peculators, that he packed the offices with them, that he promoted them in proportion t their success in peculation, and that they gorged him with presents, interferes with the theory that he was "personally retired from service.

It is time for such republicans as have common sense and common honesty t stop their studied and persistent misrep resentation of the democratic position on the question of states' rights. Bold and vigorous lying will do for such a party as theirs in a desperate emergency and as a temporary expedient, but it cannot be made to pay as a permanent policy. There is no intelligent republican who does not know that the democrats, stand squarely on the constitution in regard to the respective rights and duties of the federal and state governments. There is not a democrat in con ions? gress, or elsewhere, who holds any theory of states' rights inconsistent with the grandest future that any patriot can desire for this nation. "An indissoluble union of indistructable states," a central government sovereign in its sphere, and states sovereign in their undelegated

anthority-this is what the democratic party will try to maintain. So says the Washington Post, and we endorse it as the correct democratic position.
