CINCINNATI CONVENTION.

Continued from 2nd page.

At this point John Kelly appeared, coming down the main aisle. Instantly with great cheer, the organ chimed in and the band also took part. By this time Kelly had reached the stage the excitement was almost equal to the scene of the early movements of the Convention. The Chairman said:

"It gives me great pleasure to say to you that in nominating a President of the United States to-day, you have recalled the names of the great men of the past, and those who have been temporarily absent from this country, come to-day to announce to you that they give their allegiance to the Democracy and to the support of your ticket."

Mr. John Kelly then came to the Chairman's desk, amid terrific yells and applause, and said:

"Mr. Chairman and Gentlemen of the Convention—Your Chairman has told you that by your action to-day in the nomination of General Hancock you have united the State of New York (Shouts of applause and hisses). He has told me that you are a 'burial'."

"While myself and my brethren here on the right have been fighting each other politically for the last five years, you, no doubt, will agree with me in going to my bed and sleeping in peace and quietness. (Great applause and cheers.) I am not going to speak to you now of what has occurred since we came to the City of Cincinnati. Never again shall I enter in a political arena, but what has transpired in the State in which we live. (Applause.) Our people are disgraced simply politically. Our personal relations were never severed, though sometimes our political antagonism often led us into making passionate remarks against each other. In our sober moments, when we have time to reflect, then we see, like sensible men, that we have committed an error, and are willing to ask each other forgiveness. (Applause, cheers and a voice, 'Good for you!')

"I think that you are right, as I said, agree with me upon this question, that the great State of New York should be a unit, and unless there be a unit Democracy in that State. Now that we are united, I think that it will be safe for me to say to you that the result will be that the Democracy of the State will be a unit. You have nominated not only a great soldier, but a statesman. When intrusted with power by the Government he reflected the credit of his country to the people of his country's duty, when the Government expected him, clothed with the military authority that he was, that should take the place of the President of the United States, he would be a unit. (Great applause.)"
