

FOR THE FAIR SEX.

Cheap Dresses. The problem is not to dress upon nothing; but to get a small advantage, to use it to the best advantage.

White ties are universally worn next to nothing when made at home. A yard of nainsook or tetaia will make eight or nine, and they may be all different-tucked, hem-stitched or embroidered, and more or less elaborately.

White ties are excellent gloves for poor people, costing no more than kid and catching them two or three times. Lisle thread should be bought a size larger than kid, as they cling closely and do not stretch.

A question of economy poor girls cannot afford to wear cheap lace, or even crepe lace ruffles. A few real lace or cheaper in lace, and they last indefinitely, and are always nice looking if clean.

At eleven o'clock yesterday forenoon a citizen about seventy years old sat under an evening of Michigan avenue, and narrow platings may be made of silk and again, if the old skirt lining will do, she should use it by all means, as every cent counts.

There is a ture this season for gingham, and pent American makes may be had for twelve and fifteen cents a yard. There are two qualities at this price—one thick and heavy for hard wear; the other is lighter weight and much more dressy in appearance—this is what she must buy.

Three dollars must buy another dress, and this she has a wide choice. Victoria lace, at twenty cents, trime, with tucked ruffles of the same, dressed with a pretty, light-colored ribbon, with ruffles also, is much more dressy, and costs five cents more a yard, but they even narrower, and the quality of velvet required depends upon the quality of the oversize. A surfeit with open seams calls for a new dress, and a long, round oversize, draped by shirring, may be worn with a skirt twelve inches to the knee.

Thin, loosely-woven flannels, flannel-lined blouses, and flannel-collared blouses, are called, make cheap and useful for evening and mountain wear. Such a one may be made with a short, round skirt, with a waist-line box-pleated, and a long, round skirt with a waist-line box-pleated, and a long, round skirt with a waist-line box-pleated.

GENERAL GARFIELD'S LETTER OF ACCEPTANCE.

General Garfield has forwarded from his home at Mentor, Ohio, to Senator Hoar, of Massachusetts, the following letter of acceptance of the nomination tendered him by the Republican National convention: MENTOR, O., July 13.

DEAR SEN. HOAR: On the evening of the eighth of June last I had the honor to receive from you in the presence of the commission of distinguished citizens for the purpose of securing such a modification of the existing laws as to prevent the election of a President of the United States.

At eleven o'clock yesterday forenoon a citizen about seventy years old sat under an evening of Michigan avenue, and narrow platings may be made of silk and again, if the old skirt lining will do, she should use it by all means, as every cent counts.

NEWS SUMMARY.

Eastern and Middle States. The large store-barn at Daniel Kemmerer, in Ohio, was destroyed by fire on the 10th inst. and the loss is estimated at \$400,000.

Elizabeth Tarnag, who died at Middletown, N. Y., last night, was a remarkable life. For about forty years she and her sister Cynthia, who died last night, were unable to move about. They were confined to their beds, and were unable to get out of bed.

A man near Osgo, N. Y., was recently thrown from his wagon, and was killed. The wagon was overturned, and the man was killed by the fall.

The appointment of citizens to the various executive and judicial offices of the government is, perhaps, the most important of the duties of the Executive. The American Institute of Instruction has been organized at Saratoga, N. Y., for the purpose of promoting the education of the people.

The census in the cities. The following are the census returns from a few of the prominent cities, compared with the population in 1870, and showing the gain or loss.

Western and Southern States. The census returns from a few of the prominent cities, compared with the population in 1870, and showing the gain or loss.

THE COQUETTE WELL. A letter from Petroleum Creek, Pa., to the New York Sun, says: One of the most interesting features of the petroleum region in the early days of the petroleum excitement on Oil Creek was the discovery of the Coquette Well.

THE TARIFF. In reference to our custom laws a policy should be adopted which will bring revenues to the treasury, and will enable the labor and capital employed in our own markets with the labor and capital of foreign producers.

A Viking's War Ship.

An interesting discovery has just been made at Sandness, in Norway, of a Scandinavian war vessel. It is a long, narrow, and pointed at both ends, and is built of oak.

Switzerland, in the vicinity of Geneva, has been taken by a fire. Two men were killed and a portion of the summit of a mountain fell, overthrowing a large tower in the city of St. George.
