All fell into rank, walking regularly as d slowly two by two, until they arrived at the spot where lay the dead bodies of the Europe yesterday and is quite ill at the soldier ants. In a few minutes, two of the Clarendon hotel, ants advanced and took up the dead body of one of their comrads; then two others and so on, until all were ready to march. First walked two ants bearing a body, then lowed by an irregular body of about two hundred ants. Occasionally, the two laden ants stopped, and laying down the dead ant, it was taken up by the two walking unburdened behind them; and thus they arrived at a sandy spot near the sea. The body of ants now commenced digging with their jaws holes in the ground, into each of which a dead ant was laid, where they labored on until they had filled up the ants' graves. This did not quite finish the remarkable circumstances attending this funeral of the ants. Some six or seven of the ants had attempted to run off without performing their share of the task of digging: these were caught and brought back when they were at once killed upon the spot. A singular grave was quickly du,t, and they were all dropped into it.-Frank
