TO A FLIRT. You say that for love you sigh.

I shall never forget the rapture I fel the morning I was pronounced "finished the morning I was pronounced the morning I was pronounced the morning I was pronounced to the love that sprung up between the morning I was pronounced the morning I was pronounced the morning I was pronounced to the love that sprung up between the morning I was pronounced the work of the shower was a translated with fresh flowers and honey; in the morning I was pronounced the work of the work of shown windows upon the popular into rough the right of the work of the work of the work of fission.

It is needless to dwell upon [the circumstances which preceded my debut, and describe the process from which I may be treated the fact that the life led hand which toyed with my sliken lining was using my interior for a strangely contraband purpose.

The work of fission.

"Every sweet has its bitter," and I regret to say that my self-complacency was ruffled in some degree by the envy of my associates and the spiteful remarks I was forced to hear.

"The very thing to catch the eye of a sporting blackleg, or some brainless swell," whispered an insignificant system of the work of was provided to remain long in suspense, for notwith them." While a pert little "Nobby" remarked with a leer, "All's not gold that glittlers." Disagreeable words like these I confess caused some misgivings in reference to my future, both fact to remain long in suspense, for notwiths thanding the high price set upon me, only a few days elapsed when an exceedingly a raistorratic-looking, venerable gentieman entered the store and requested the obsequious clerk to permit him to inspect the elegant beaver, at the same moment indicating my proud self by a motlou of his sold-headed cane.

The hatter turned me over and over and over and over any over a clear of the protector, and, althouc

RELIGIOUS NEWS AND NOTES.

The Turning Leaf. The elm is turning yellow, The woodbine rich with stain;

The frost bath fringed the maple

With crimson fire again.
I hear the crisp corn rustle that's gathered

into sheaves, And my heart stands still a moment to think of what it leaves.

I pick the honeyed clover

That blossoms at my feet;

Ah, me! long years are over

of what it leaves.

I ponder o'er and o'er;

into sheaves,

Is as it was before.

The sadness and the sweetness

Nor sighing nor the gladness

hear the crisp corn rustle that's gathered

Since first I tound it sweet. hear the crisp corn rustle that's gatheres And my heart stands still a moment to think

ith the gift
"Our hearts are lighter for its sake,
Our hacey's age renews its youth,
And dim-remembered fictions take
The guise of present truth."

— Vick z Magazine.

met in their journeyings. Some people have the impression that large numbers of elephants' tusks are found buried in the sand, having been shed by their posses 60-rs. This idea is erroneous. The elephant cannot exist except where there is an abundance of vegetation and water, and he never sheds his tasks until he dies. A tusk of ivory left exposed to the action of the weather for any considerable length of time will track and decay so as to be almost worthless to the manufacturer of piano keys or fine country.

I vory tusks range from three pounds to 180 pounds. The quality known to the trade as "prime ivory" is used by the manufacturers of piano keys or dime will track and the tusks will average about seventy-five pounds each, none weighing under fifty pounds. Each tusk passing through the Zanzibar custom-house is stamped and numbered, these numbers often run as high as 19,000 in a single half year.

Africa also contributes gume-copal, used in the manufacture of pianoforted into this country and England are broken up and graded before shipment.

Shellacs, which enter into the manual firing, when the proper remeins an underfined the special contributes and the day by using their oars, the captain vanted to know the execution. The duality known to the weether for any considerable length of time wetched story was published all over the country. This woman was young and beautiful. She half is duality and or some observant of the death of a lady, the daughter of one of the most of the death of a lady, the daughter of one of the most of the output and the surface of morphine. The time transport of the output and she proved by the account of the death of a lady, the daughter of one of the most of the output and the surface all over the country. This woman was young and beautiful. She half is dualities, the struggles against it were vain. At an age when she should have been in the struggles against it were vain. At an age when she should have been in the struggles against it were vain. At an age when she should have b
