

The Centre Reporter.

1880. KURTZ EDITOR. CENTRE HALL, Pa., Dec. 9, 1880.

It is settled that Bob Ingersoll will be the white-house favorite under Garfield's administration.

The queen of England is on the "outs" with three of her daughters. Other members of her family are trying to reconcile the royal mother with her daughters.

One hundred and sixty coal miners at Bloomington, Ill., have struck for higher wages. Higher wages were promised workmen if Garfield would give a fulfillment of the promise or be—electors.

In New York they have a woman before court for stealing. She would marry a man and then manage to get a part of his money. When we bet a copy of the Reporter she is for Garfield, because she has no regard for her word. Marrying has no terrors for her.

M. De Lesseps has great faith in the Suez canal. He states, "I have greater confidence in the Panama canal than I had in the Suez canal."

The Pacific coast has been the healthiest region in the world. There are already excavators made which excavate 300 cubic metres an hour.

Now that the republicans are to retain power another four years, all virtue and promise of good behavior has been thrown to the dogs.

Read the prospectus of the Pittsburg Post in another column. The Post is an old democratic organ of wide reputation for its ability and sound views.

There is a very bitter fight going on in Ohio for the senatorship, between Gov. Foster and John Sherman. The Foster people say he paid \$2500 of Sherman's hotel bills at Chicago during the convention.

It is said that a dinner set made for the White House and paid for by the people is claimed by B. Hayes as private property; some curious ones are wondering if he will claim the handsome desk presented to the president of the United States by the queen.

Ex-speaker Crow claims that he has two-thirds of the legislature instructed him for U. S. Senator. No doubt he has now, but when the vote comes off they may be found in Cameron's pocket.

The fraudulent President has sent his last message to Congress. It is very lengthy and windy. The Patriot says of it:

Mr. Hayes declares that "continued opposition to the free and equal enjoyment of the rights of citizenship conferred upon the colored people by the recent amendments to the Constitution still prevails in several of the late slaveholding States."

On the subject of civil service reform the message utters no uncertain sound. Appointments to subordinate offices should be made without regard to the politics of the applicant.

THERE'S MILLIONS IN IT.

EXTRAVAGANT DEMANDS OF THE NATIONAL DEPARTMENT. Increased Appropriations from Congress Called for—Officials who Have an Idea that they Ought to Have More Pay for their Services.

Washington, November 25.—The estimates of the appropriations for the fiscal year ending June 30, 1882, are chiefly noticeable for their increase.

The second line of inquiry will be the alleged frauds by which the State of New York was carried by the Republicans for Garfield, and this will be done with no idea of disputing Garfield's title to the presidency.

NEW MEXICAN DISCOVERIES.

An American, Hercules and Pompeii. America as well as Italy, has its Herculean and Pompeii, if we may believe the reports of Messrs. Patterson and Mackley, two gentlemen engaged in mining in New Mexico, who have just arrived at St. Louis.
