THE SUN FOR 1887

Everybody reads "HE SUR. In the editions of this powersper throughout the year to come severybody will find:

I A" the world's news, so presented that the reader will get the greatest amount of information with the least unprofitable expenditure of time and eyesight. The Sun long ago discovered the golden mean between redundant fulness and unsatisfactory brevity.

II Much of that sort of news which depends less upon its recognized importance than upon its interest to mankind. From merning to morning The Sun prints a continued story of the lives of real men and women, and of their deeds, plans, loves, hates, and troubles. This story is more varied and more interesting than any romance that was ever devised.

III. Good writing in every column, and

VI. Absolute independence of partisan organizations, but unwavering loyally te true Demecratic principles. The Sun believes that the Government which the Constitution gives us is a good one to keep. Its notion of duty is to resist to its utmost power the efforts of men in the Republican party to set up another form of government in place of that which exists. The year 1881 and the years immediately following will probably decide this supremely important contest. The Sun believes that the victory will be with the people as against the Rings for monopoly, the Rings for plunder, and the Rings for imperial power. Our terms are as follows:
For the Daily Sun, a four page sheet of wenty-eight columns, the price by mail, ostpaid, is 55 cents a month, or \$60 a rear, or, including the Sunday paper, an eight-page sheet of fifty-six celumns, the price is 65 cents a month, or \$7.70 a year, ostage naid.
