## CLEVAN DINGES

is revolutionizing the whole Retail Trade in Pennsvalley. It will pay to come from a distance and take a day in examining his stock.

In a few days he will open the finest line of

## Glassware

ever exhibited in the county and at the cheapest rates. Only give him a trial.

He also says that his Clothing is selling rapidly and he expects to sell all of his stock off before 30 days. Be sure and buy a suit of him and get a bargain. Anything not in stock will be procured on short notice. See what he says:

*I will prove to you that I can save you a percentage on Bellefonte prices and can easily do it. My Stock consists of pure and reliable goods.*

A COFFICIAL INVITATION IS EXTENDED TO ALL TO CALL AND SEE. Respectfully,

**CLEVAN DINGES.**

### ITEMS OF INTEREST.

This is an age of dead issue, dead beats and deadlocks.—Knoxville Tribune.

Philadelphia is reported to have a hundred new factories in course of erection. Mrs. Mary E. Nash, of Des Moines, Iowa, has declined the Greenback nomination for State Superintendent of Public Instruction.

The finest lot of dress goods can be found at Dinges', at prices that will surely astonish all.

An allopathic physician at Mount Clemens, Mich., refused to act as a pallbearer at a funeral because a homoeopath had also been invited.

The Winchester Armory, New Haven Conn., declined an order for 50,000,000 cartridges from Turkey until satisfactory security should be offered.

It may not be generally known that during the last three months more goods have been sold at Dinges' than in any other store in Pennsvalley.

Russian immigrants in Minnesota escaped the trouble of coal famine by burning prairie hay in their air tight, old country, brick-lined stoves.

Pennsylvania has a new law, and the first one to be adopted in any State, forbidding the separation of white and black children in the public schools.

In the United States of Columbia the grasshopper attains a size that throws the Kansas article in the shade. They are said to be five or six inches in length, and have entirely destroyed the crops.

Electric lighting is in successful operation on more than sixty steamers on the Mississippi river and its tributaries. It is believed to add much in the safety of that kind of traffic and traveling.

There is now building in the Baldwin Works, Philadelphia, a locomotive designed to be the fastest in the world and intends to do eighty miles an hour with out taking water. It will be taken to Europe and tested on the railroads of England and the Continent.

Dinges' is the place to buy cheap, and the sooner the poor man finds it out the better afterwards he can get along, for Dinges will save him money if anyone can.

An old Long Island sportsman says that horses frequently die of broken hearts because they travel the same road every day and become tired of seeing the same objects. He says that the best way to restore a horse to health is to take him off on a new road and let him say a little.

The house of Washington Irving, two miles south of Tarrytown, N. Y., is greatly out of repair, but it is said that the library is exactly as he left it. Even his pen is on the table where he laid it down for the last time, and his papers as he had arranged them on his desk, they have never been disturbed.

See the change in Dinges' advertisement in this week's supplement. Cleve has the enterprise to run a first class store and will no doubt in a short time do for Centre Hall what it never expected to see—the largest retail store in Centre county.

Within the last decade seven of the great public men whose fame filled Europe for a couple of generations have died—Napoleon III., Mazzini, Thiers, Victor Emanuel, Pius IX., Alexander II., and Beaconsfield. Gortcha voff, Bismarck and Gladstone are still in harness, but their age will scarcely carry them to 1890.
