"And here pardon me for relating a little personal experience. In the year 1870 I found myself losing both in strength and health. I could assign no cause for the decline, but it continued, until finally I called to my aid two prominent physicians. After freating me for some time they declared I was suffering from Bright's disease of the kidneys, and that they could do nothing more for me. At this time I was so weak I could not raise my head from the pillow and I

where used, was this true, that I determined the entire world should share in its results; and I therefore placed the formula for its preparation in the hands of Mr. H. H. Warner, of Rochester, N. Y., a gentleman whom I had cured of a severe kidney disease, and who, by reason of his personal worth, high standing and liberality in endowing the Astronomical Observatory and other public enterprises, has become known and popular to the entire country. This gentleman at once began the mannfacture of the remedy on a most extensive scale, and to-day, Warner's Safe Kidney and Liver Cure, the pure remedy that saved my life, is known and used in all parts of the continent.

"I am aware a prejudice exists toward proprietary medicines, and that such prejudice is coo often well-founded, but the value of a pure remedy is no less because it is a proprietary medicine, A justifiable prejudice exists toward quack doctors, but is it right that this prejudice should extend toward all the doctors who are earnestly and intelligently trying to do their duty! Because Wain 'a Safe Kidney and Liver Cure saved my life sefore it became a proprietary medicine, is it reasonable to suppose that it will not cure others and keep still more from sickness now that it is sold with a government stamp on the wrapper? Such a theory would be childish."
