Fall Planting of Small Fruits.

It is urged by the Fruit Recorder that until the oil comes out quite clean, covery of a successful method of treatment of the covery of the covery of a successful method of treatment of the covery of those contemplating setting out small which is a sign that the machine is perthose contemplating setting out small fruit should give one trial at least to fall setting. All that is necessary is to either tack up over the roots with earth, or throw a forkful of litter over each plant, before the ground freezes ach plant, before the ground freezes to the ground f up, and in the spring haul this away. First, because they get settled in their places, and getting the benefit of early spring rains, start early, and make a full growth next season, while if set next spring it cannot be done properly until the ground is settled and the heavy spring rains have ceased. Second, all fruit-growers know how pressed they are for a time in the pressed they are for a time in the spring. Third, raspberries and blackberries have very tender germs that start very early in the spring, and these are likely to be broken off if set then, while if set in the fall they have not started enough to damage them in transplanting. And fourth, but not spring and the series have the series least, a much larger proportion of them live when set in the fall—a fact abunding mend too much use of this spirit.

Many are puzzed to distinguish the and Lyons who charge half a franc for ner, proceeding slong the trail one day were the cause of their collapse. Many are puzzed to distinguish the sex in geese, ducks and guineas. This distinction in many birds is designated by the plumage, but where both are exactly alike there is some difficulty oftentimes in telling the male from the female. The male of domestic fowls is always the largest and strongest bird, and in colored plumage has the darkest, highest, rich. It color. The male has the strongest, neatest form, and posthe strongest, neatest form, and pos-sesses the swiftest flight. With the ridge cochins and brown leghorns, African battalion, or on men under arpartridge cochins and brown leghorns, birds similar in plumage, the cocks are rich-colored birds, with jet-black breasts, and possess a neck, saddle and back that the common observer would term red, while beside them the hens are tame and sober of dress. Notwithstand-time and sober of dress. Notwithstand-time were 280 "amorous and erotic devices," ing the uniformity of plumage in ducks, and 344 works of pure fantasy, such as there are distinguishing marks to be de-vended on. The drake is the larger bird, and, as in geese, also, the male has heads. The great efforts of art are rethe longest neck and the more upright served for the surfaces of the breast and carriage. The white gander is bold, and has a longer, flatter head. The goese has a shorter neck, carries it imagination of a dissipated solder being lower, is meeker, more quiet and humble in aspect, with shorter legs, a thicker, shorter, lower body and is entirely subservient to her mate. There is a marked difference about the eyes.

was my cousin, if he had ever been gives some simple rules for growing hyacinths, from which it is evident that every house may easily be beautified every house may easily be beautified sense of fear. It was in the city of whereas the unlimited power of a prime whereas the unlimited power o in bed only a few minutes and was get-ting drowsy, when he distinctly heard something under his bed, which lifted up as if a man was secreted there. press it down so that only its upper rurface appears above the soil; then water, giving all the earth will hold. The pot must now be set away in a cool, dark cellar for several weeks, where they will fill with roots, but there will be little or no top-growth.

In a man was secreted there.

Jackson said he leaped out of bed and drew his sword, and he examined the bed and the room in vain. Just as he was thinking it was all a mistake, his bed lifted again, plainly and with some force. He started forth a second time, force. He started forth a second time, there will be little or no top-growth.

which florists sell for the purpose are best adapted to this mode of culture. The glasses being filled with pure soft water, the bulbs are to be placed in them during October and November so that the base of the bulbs may just funch the water; in time, the water will evaporate, and once a week or so it must be replenished, being careful not to disturb the roots in refilling the glasses. Set them away in a cool dark place, as recommended for growing in pots; then, when the roots have filled the glass, exposure to the sun will be in order. To have them grow well, sprinkle the leaves, and give them fresh air whenever practicable. To keep the water sweet, put a piece of charcoal in the glasses. Peter Henderson says that hyacinths grow better in moss than in pots or classes. The moss is sponge-like and the roots of hyacinths grow luxuriantly, 4 wire basket in which four or five diff. the roots of hyacinths grow luxuriantly.

Shempire.
Landlords and tenants in Ireland are begin-Landlords and tenants in Ireland are beginning to compromise their differences, the former on account of the sweeping reductions of tent made by the land commission and the latter on account of the expense attending applications to the court.

The tenants upon the estate of Sir John Ennis have unanimously resolved to demand an abatement of their rents. In the event of a refusal, they will apply to the land court. There are upward of 5,000 tenants on the estate.

tension of the Texas and Pacific, is an extensive industry. Hundreds of wagons and teams are engaged in the business and the bones sell for \$12 per ton.

I was compelled to give up my daily work and keep to the house. A neighbor recommended me to try a bottle of Dr. Bull's Cough Syrup. It was procured and used; to my astonishment relief was instantaneous. EDW. W. CLAYTON, Waverly, Md.

A Heartiess Practical Joke, Amelia Pohl was a St. Louis hunchback. Her deformity was such as to make her rather hideous, and naturally she had no suitors. At the she had no suitors. At the she had no suitors. At the she lived alone and worked in a glove factory. Some mischievous girls in the workshop told her that a handsome foreman had fallen in love with her, and he assisted in the joke by maintaining he assisted in the joke by maintaining how how he had a mock courtship. Amelia was slow to a mock courtship. Amelia was slow to a mock courtship. Amelia was slow to a mock courtship won so attractive a his laudable design is shown by the fact the fact had a mock courtship with the side of the shown by the fact the slow of the shown by the fact the slow of the shown by the fact the slow of the shown by the fact the shown by the shown by the fact the shown by th man, and by the time she was fully convinced the others had grown tired of deceiving her. The truth was made known to her quite heartlessly. She indited a bitter curse upon her tormentors and committed suicide.

Mr E Purcell, of No. 11 Ann street, New York, used St. Jacobs Oil for rheuma-tism with entire relief, writes a New York journal.-Richmond (Va.) Christian Advo-

"You Don't Know Their Value."
They cured me of ague, billousness at kidney complaint, as recommended. I had half bottle left which I used for my two litt girls, whom the doctors and neighbors as could not be cured. I am confident I shou have lost both of them one night if I had n had the Hop Bitters in my house to use, found they did them so much good I continu with them and they are now well. That why I say you do not know half the value Hop Bitters, and do not recommend the highly enough.—B. Rochester, N. Y. Some star actors are allowed to say that they get \$100 per week when they only receive about \$25. The \$75 which they lie about is supposed to advertise

It would be supposed from its popularity that only one substance is known to the world for the relief of rheumatism, and that is St. Jacobs Oil. St. Louis (Mo.) He who throws out suspicion should at be suspected himself.

Believers in the favorable influences exercised by comets on the grape have their faith confirmed by the reports that the vintages of this year will be of exceptionally fine quality.

Never Returns.

It is said that one out of every four real invalids who go to Denver, Col., to recover health, never return to the East or South except as a corpse. The undertakers, next to the hotel keepers, have the most profitable business. This excessive mortality may be prevented and patients served and cured under the care of friends and loved ones at home, if they will but use Hop Bitters in time. This we know. See other column.

LIFE is so complicated a game that the devices of skill are liable to be defeated at every turn by air-blown chances, incalculable as the descent of thistle-down.

Poverty and Distress.

That poverty which produces the greatest distress is not of the purse but of the blood. Deprived of its richness it becomes scant and watery, a condition termed anemia in medical writings. Given this condition, and scrotilous swellings and sores, general and nervous debility, less of flesh and appetite, weak lungs, throat disease, splitting of blood and consumption, are among the common results. If you are a sufferer from thin, poor blood employ Dr. Pierce's Golden Medical Discovery, "which enriches the blood and cures these grave affections.
