"Yes, yes," she whispered, "all in vain, I hear the bells of hollow towers, But your heart swiftly beating here Tells all too well the flying hours."

SCIENTIFIC NOTES.

A Wealthy Newsboy. Tower City, Dakota, Las a water sup-ply from a remarkable artesian well, the nature of which seems to deserve close examination by geologists on the spot. When the earth was penetrated 560 feet salt water was obtained. Twenty feet further down a gravelly stratum was struck, yielding also salt water. After boring down 604 feet fresh water mixed with quicksand came up. Now, from a depth of 675 feet, there is a flow of pure water of steadily increasing quantity. A Wealthy Newsboy.
